show magnification scale. They should be unmounted on glossy paper and included in the body of the text and not included in the body of the text and not be published elsewhere. Review articles on timely subjects will be accepted.

ILLUSTRATIONS: Photographs should be referred to as figures, numbered consecutively, not included in the body of the text and not be published elsewhere.

REFERENCES to authors outside the context of the sentence should read Year, i.e. “However, a recent study (Bird and Iverson, 1975) showed a decreased, etc.” Authors mentioned within the context of the sentence should read Name (Year), i.e. “... twenty years since Ecker and Reimenshender (1951) demonstrated, etc.” References should be typed in alphabetical order on a separate sheet and include author’s name, initials, year, title, publication, volume, first and last page, i.e. Isacson, P. (1967). Myx-viruses and autoimmunity. Progress in Allergy, 10, 256-292. Abbreviations should be the same as those used in Cumulated Index Medicus.

Textbook references should include name of text, author’s name, page number, publisher and city.

REPRINTS: Fifty reprints will be supplied free if ordered when the galley proofs are returned. More may be ordered at a nominal charge. Corrections and changes in the galley proofs, apart from printer’s errors may be charged to the author.

The Journal gratefully acknowledges the support of the Winnipeg Clinic Research Institute, National Research Council Canada and the Murphy Foundation of Winnipeg.
Author Index to Volume 6

The full citation is listed under the name of the first author. Other authors are referred to the name of the first author. Abs = abstract.
