# Now, for the high risk of CV Catheter related infection, in there's the higher reward of infection control.

Maintaining the delicate balance of the patient at high risk of infection is the concern of all in critical care medicine. For the immuno-compromised or high-risk patients, infection can be life-threatening. And for everyone involved, infection is very expensive.

**Now** Becton Dickinson Critical Care Monitoring answers your concerns about catheter related infection with the first short term CV catheter featuring built-in infection control. Only Safe-Dwel" catheters from Becton Dickinson come complete with VitaCuff; the antimicrobial collagen cuff clinically proven to dramatically reduce catheter related infections. That means significant care and cost advantages.

The next time the risk of infection is high, choose the higher rewards of effective infection control. Choose Safe-Dwel CV catheters with VitaCuff from Becton Dickinson.
