19th International Congress of Nutrition
Nutrition Security for All
4-9 October 2009 - Bangkok, Thailand
Bangkok International Trade and Exhibition Centre

The Olympics of Nutrition
CALL FOR REGISTRATION

Deadline for Early-bird registration
4th July 2009

Plenary Sessions
Global Efforts towards Achieving the MDGs and Nutrition Well-being
Dr. Ala Alwan, World Health Organization, Switzerland

Agriculture, Food Supply Systems and Trade for Nutrition Security
Speaker to be confirmed

Molecular Genetics, Environment, and Diet-Related Diseases
Prof. Gordon H. Williams, Harvard Medical School, USA

Global Partnerships for Combating Obesity and Chronic Diseases
Prof. Sinath Rady, Pubic Health Foundation of India, and Prof. Phillip James, International Obesity Task Force, Public Health Policy Group, UK

Nutrition, Lifestyle and Cancer
Prof. John Milner, National Cancer Institute, USA

Nutrition as a Sound Investment for Human Capital
Prof. Juan Rivera, Instituto Nacional de Salud Publica, Mexico, and Prof. Susan Horton, Wilfrid Laurier University, Canada

Who Should Attend?
- Nutritionists
- Dieticians
- Public health and disease prevention specialists
- Diabetologists
- Pediatricians
- Endocrinologists
- Infectious disease specialists
- Cardiovascular disease specialists
- HIV specialists
- Obesity specialists
- Maternal healthcare specialists
- Policy makers
- Research and development companies
- Non Governmental Organizations
- Educational Institutions
- Food companies
- Pharmaceutical companies
- Laboratory equipment companies
- Suppliers and importers of nutrition medical devices
- Medical products and system manufacturers

Keynote Speaker
Dr. Tatadata Yamada, President, Global Health Program, Bill & Melinda Gates Foundation, USA

Addressing Nutrition and Health Challenges for the 21st Century

Exhibition Features:
- Leading food and nutrition companies, research and development companies and suppliers of nutrition medical devices
- Free exhibition entry for Congress delegates
- Show dates 5-9 October 2009

LAST EXHIBITION SPACE NOW BEING SOLD

Nutrition & Metabolism
Nutritional Supplementation
Effects of dietary supplementation with red-pigmented leafy lettuce (*Lactuca sativa*) on lipid profiles and antioxidant status in C57BL/6J mice fed a high-fat high-cholesterol diet.

Appetite
Impairment of the serotonergic control of feeding in adult female rats exposed to intra-uterine malnutrition.

Obesity
Serum leptin levels in overweight children and adolescents.

H. Antunes, C. Santos & S. Carvalho
The British Journal of Nutrition is an international peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society. The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Table of contents and abstracts are available free at the same website.

Editor-in-Chief
P C Calder, School of Medicine, University of Southampton, Southampton, UK

Deputy Editors
F Bellisle, INRA, University of Paris, Boisgy, France
D R Jacobs Jr, School of Public Health, University of Minnesota, Minneapolis, MN, USA
R J Wallace, Gut Health Programme, Rowett Research Institute, Aberdeen, UK
S J Whiting, College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada

Reviews Editor
J C Mather, School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK

Supplements Editor
C Seal, School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK

Book Reviews Editor
O B Kennedy, School of Food Biosciences, University of Reading, Reading, UK

Editorial Board
J B Anderson, Chapel Hill, NC, USA
J R Arthurs, Aberdeen, UK
S B Austin, Norwich, UK
D Attia, Croydon, UK
Y Bao, Norwich, UK
G Bell, Stirling, UK

S Garnett, Sydney, Australia
A Hartwig, Nisshigawa, Okinawa, Japan
B A Griffin, Surrey, UK

Publications Staff
C Goodstein (Publications Manager), C Jackson (Deputy Publications Manager), J Norton, L Weeks
H Zdravics and C Isherwood (Editors), P Nestel, University of Reading, Reading, UK

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

The Nutrition Society publishes original research articles, review articles, short communications and technical notes on human, animal or experimental nutrition. There is also a student membership scheme with reduced subscriptions.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

References. Statistical packages should be listed in the Methods section of the paper. When an article has more than ten authors, only the names of the first three should be given followed by et al.; give abbreviated journal titles and conform to the Vancouver system.

Journal subscriptions may be purchased directly from the society for a particular year or from the Nutrition Society website (http://www.nutritionsociety.org). All relevant financial interests should be declared.

Text. Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics except for scientific names. Standard abbreviations (e.g. IgG and IgE) and SI units should be used. Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only. The only need for further changes should be at most reflect any minor issues.

Title Page. The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply five or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head. An abstract should commence with an informative and accurate informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text figures, and should not exceed 250 words. Tables. Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page per Table, at the end of the article and carry headings describing their content. Illustrations. The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable wherever they clearly contribute to the text. All figures should be numbered and legends should be provided.

British Journal of Nutrition
An International Journal of Nutritional Science
Volume 101, 2009 ISSN: 0007-1145

Aims and Scope
The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn.
Contents

Review Article
Vitamins and cardiovascular disease.  
S. Honarbakhsh & M. Schachter  
Role of sulfur amino acids in controlling nutrient metabolism and cell functions: implications for nutrition.  
S. Tesseraud, S. M. Coutard, A. Collin & I. Seiliez  

Short Communication
Dose-dependent effects of walnuts on motor and cognitive function in aged rats.  
L. M. Willis, B. Shukitt-Hale, V. Cheng & J. A. Joseph  
Effects of a flavoured-derived lignan supplement on C-reactive protein, IL-6 and retinol-binding protein 4 in type 2 diabetic patients.  

Molecular Nutrition
Haem and folate transport by proton-coupled folate transporter/haem carrier protein 1 (SLC46A1).  
Virgin olive oil polyphenol hydroxytyrosol acetate inhibits in vitro platelet aggregation in human whole blood: comparison with hydroxytyrosol and acetylsalicylic acid.  
J. A. G. Correa, J. A. López-Villodres, R. Acuña, J. L. Esparraro, G. Rodríguez-Gutierrez & J. P. D. L. Cruz  
The antioxidant effects of quercetin metabolites on the prevention of high glucose-induced apoptosis of human umbilical vein endothelial cells.  
C.-L. Chao, Y.-C. Hou, P.-D. L. Chao, C.-S. Weng & F.-M. Ho  

Metabolic and Metabolic Studies
Interactive and individual effects of dietary non-digestible carbohydrates and oils on DNA damage, SCFA and bacteria in the large bowel of rats.  
M. A. Conlon & A. R. Bird  
Metabolic syndrome signs in Wistar rats submitted to different high-fructose ingestion protocols.  
Maternal undernutrition programmes atherosclerosis in the ApoE*3-Leiden mouse.  

Human and Clinical Nutrition
The composition of mineral waters sourced from Europe and North America in respect to bone health: composition of mineral water optimal for bone.  
E. Wynn, E. Baat & P. Buckland  
Dietary Surveys and Nutritional Epidemiology
Dietary exposure estimates of twenty-one trace elements from a Total Diet Study carried out in Pavia, Northern Italy.  
G. Turconi, C. Minoia, A. Ronchi & C. Roggi  
Sucrose in the diet of 3-year-old Finnish children: sources, determinants and impact on food and nutrient intake.  
A study testing the usefulness of a dish-based food-frequency questionnaire developed for epidemiological studies in Korea.  
Y. O. Kim, M. K. Kim, S. A. Lee, Y. M. Youn & S. Sasa  
Dietary fat and risk of renal cell carcinoma in the USA: a case-control study.  
Short stature of mothers from an area endemic for undernutrition is associated with obesity, hypertension and stunted children: a population-based study in the semi-arid region of Alaguras, Northeast Brazil.
