BioSocieties is published by Cambridge University Press for the London School of Economics and Political Science.

**Subscriptions**

BioSocieties (ISSN 1745-8552) is published four times a year in March, June, September and December. Four parts form a volume. The subscription price which includes delivery (but excluding VAT) is £214.00 (US $340.00) in USA, Canada and Mexico for institutions; £25.00 (US $45.00 in USA, Canada and Mexico) for individuals, which includes print only. Students ordering direct from the publishers and certifying that the journal is for their personal use can subscribe at the student rate of £18.00 (US $30.00 in USA, Canada and Mexico). The online-only price available to institutions is £242.00 (US $384.00). Single parts are £77.00 (US $120.00 in USA, Canada and Mexico) plus postage. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered members should provide their VAT registration number. Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, P.O. Box 473, Chitose, Tokyo 156, Japan. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU; or in the USA, Canada and Mexico; Cambridge University Press, 800 Cambridge Street, Cambridge, MA 02139, USA. Any queries should be sent to Cambridge University Press, Houghton Street, London WC2A 2AE, UK. E-mail: i.a.singh@lse.ac.uk

BioSocieties is published by Cambridge University Press for the London School of Economics and Political Science.

In its first three years BioSocieties demonstrated the constructive potential of interdisciplinary dialogue and debate across the social and natural sciences. We are becoming the journal of choice not only for social scientists, but also for life scientists interested in the larger social, ethical and policy implications of their work. The journal is international in scope, spanning research and developments in all corners of the globe. BioSocieties appears quarterly, with occasional themed issues that highlight some of the critical questions and problematics of modern biotechnologies. Articles, response pieces, book reviews, and self-standing editorial pieces by social and life scientists form a regular part of the journal.

**Instructions for contributors**

Editorial Policy

BioSocieties is an innovative new journal in the social sciences, dedicated to advancing analytic understanding of the social, ethical, legal, economic, public and policy aspects of current and emerging developments in the life sciences. These include genomics, neuroscience, psychopharmacology, biomedical and reproductive technologies, and bioculture.

As the first journal of its kind, BioSocieties publishes scholarship across the social science disciplines, and represents a lively and balanced array of perspectives on controversial issues. In its first three years BioSocieties has published the constructive potential of interdisciplinary dialogue and debate across the social and natural sciences. We are becoming the journal of choice not only for social scientists, but also for life scientists interested in the larger social, ethical and policy implications of their work. The journal is international in scope, spanning research and developments in all corners of the globe. BioSocieties appears quarterly, with occasional themed issues that highlight some of the critical questions and problematics of modern biotechnologies. Articles, response pieces, book reviews, and self-standing editorial pieces by social and life scientists form a regular part of the journal.

**Contributors**

Contributors are responsible for obtaining permission to reproduce any material in which they do not hold copyright for worldwide publication in all media, including electronic publication, and for ensuring that any appropriate acknowledgments are included in their manuscripts.

**Manuscript Preparation**

Please submit an electronic copy of the manuscript that meets the following requirements:

A. Manuscripts should not exceed 10,000 words (excluding footnotes, but excluding references) and should be double-spaced and typed in Times New Roman, 12 point font. Please include consecutive page numbers on all pages, and arrange the manuscript in the following order: 1. cover letter; 2. title page; 3. abstract and keywords; 4. main text; 5. acknowledgments; 6. references; 7. appendix; 8. figure captions; 9. tables and figures. Tables and figures should not be imported into the text. Attach manuscripts as Word documents and send to the Managing Editor: filippa.lentzos@lse.ac.uk.

B. The cover letter should confirm that the manuscript is comprised of original material that is not under review elsewhere, and that the author(s) on which the research is based has been subject to appropriate ethical review. Authors must also note whether they have any competing interests, intellectual or financial, in the research detailed in the manuscript.

C. Please include the following information on the title page: Name, email, and professional affiliation of all authors. Please note the corresponding author’s name on the title page, along with telephone and fax numbers for this author. Please also provide a manuscript word count.

D. An abstract of no more than 200 words should precede the text. Include six keywords for indexing purposes.

E. References: Authors should comply with the guidelines set forth in the Publication Manual of the American Psychological Association (6th edition). The editors reserve the right to return manuscripts that do not follow appropriate APA citation format.

In-text citations should include the author’s last name and date of publication, and may include page numbers; for example, Kramer (1993). In some cases, multiple citations may be included in a single text, and every reference must be cited in the text. Citations listed in footnotes must also be listed in the references section.

Examples:

F. Colour figures may be accepted provided that they contribute to the editorial content and are of a high quality. However, they are expensive to reproduce and the cost must be met by the author(s). A binding agreement to meet the costs will be required before the manuscript can be accepted for publication. Colour figures should be provided electronically in TIFF format or, at most, 300 dpi. Please also provide a printout of the illustration with exact instructions as to which part of the illustration is to be used, and where the illustration should be located within the text of the article.

**Proofs**

Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors.

**Offprints**

A pdf of each article and a complimentary copy of the issue in which the article appeared will be supplied free of charge to the first-named author.
