Animal Health Research Reviews

Published in collaboration with the Conference of Research Workers in Animal Diseases

Editor-in-Chief
C. Gyles, University of Guelph, Canada

Animal Health Research Reviews provides an international forum for the publication of reviews and commentaries on all aspects of animal health. Papers include in-depth analyses and broader overviews of all facets of health and science in both domestic and wild animals. Major subject areas include physiology and pharmacology, parasitology, bacteriology, food and environmental safety, epidemiology and virology. The journal will be of interest to researchers involved in animal health, parasitologists, food safety experts and academics interested in all aspects of animal production and welfare.

Journal of Dairy Research
Published for the Institute of Food Research and the Hannah Research Institute

Executive Editors
D. G. Chamberlain, Hannah Research Institute, UK
E. C. Needs, Hannah Research Institute, UK

Journal of Dairy Research publishes original scientific research on all aspects of mammary biology and dairy science including: the physiology, biochemistry, cell biology and endocrinology of lactation; animal husbandry, milk production, composition, preservation, processing and separation; biotechnology and food science; properties of milk proteins and other components; dairy products such as cheese, fermented milks and spreads; relevant studies in bacteriology, enzymology and immunology, the use of milk products in other foods; and the development of methods relevant to these subjects.

The Lichenologist is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, The Lichenologist reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered including systematics and phylogenetics; molecular biology; ultrastructure, anatomy and morphology; secondary chemistry, effects of pollutants and use as bioindicators; biogeography.

Microscopy and Microanalysis, a peer-reviewed bi-monthly, publishes original research papers in the fields of microscopy, imaging, and compositional analysis. This distinguished international forum is intended for microscopists in both biology and materials science. The journal provides significant articles that describe new and existing techniques and instrumentation, as well as the applications of these to the imaging and analysis of microstructure. Microscopy and Microanalysis also includes review articles, short communications, letters to the editor, and book reviews.
PARASITOLOGY

CONTENTS

REVIEW ARTICLES

The skin migratory stage of the schistosomulum of Schistosoma mansoni has a surface showing greater permeability and activity in membrane internalisation than other forms of skin or mechanical schistosomula
Wander de Jesus Jeremias, Jose Renan da Cunha Melo, Elo Hoko Baba, Paulo Marcus Zeleh Costa and John Robert Kuvis 1143

Symbiosis in an overlooked microcosm: a systematic review of the bacterial flora of mites
Witpong Ochale, John W. McGarry, Serge Morand and Benjamin L. Makepeace 1152

RESEARCH ARTICLES

Enzymatic activities linked to cardiac energy metabolism of Trypanosoma evansi-infected rats and their possible functional correlations to disease pathogenesis
Matheus D. Baldissera, Virginia C. Rech, Guilherme Lopes, Lelia M. Stefani, Silvia G. Monteiro and Aleksandro S. da Silva 1163

Expression of the histone chaperone SET/TAF-I/H9252 during the strobilation process of Mesocestoides corti (Platyhelminthes, Cestoda)
Caroline B. Costa, Karina M. Monteiro, Aline Teichmann, Edileuza D. da Silva, Karina R. Lorenzatto, Martín Cancela, Jessica A. Paes, André de N. D. Benitz, Estela Castillo, Rogério Margis, Arnaldo Zaha and Henrique B. Ferreira 1171

Prevalence and diversity of Plasmodium and Haemoproteus parasites in the globally-threatened Aquatic Warbler Acrocephalus paludicola
Júlio Manuel Neto, Antón Pérez-Rodríguez, Martin Haase, Martin Flade and Staffan Bensch 1183

Increased prevalence and geographic spread of the cardiopulmonary nematode Angiostrongylus vasorum in fox populations in Great Britain

Fasciola hepatica from naturally infected sheep and cattle in Great Britain are diploid
N. J. Beasley, K. Cross, D. J. L. Williams and J. Hodgkinson 1196

Cutaneous Leishmaniasis in dogs: is high seroprevalence indicative of a reservoir role?
José E. Calzada, Azael Saucedo, Kadir González, Chystrie Rigg, Keesha Phare, Ana Maria Sambamurthy, Indra Rodrigues, Nicole L. Gottsmaner, Marc D. Laurenell and Luis F. Chaves 1202

Detecting transmission areas of malaria parasites in a migratory bird species
Luz Garias-Longoría, Oluf Halgren, Stefan Bensch, Florentino de Lope and Alfonso Muniz 1215

Toxoplasma gondii seropositivity and cognitive functions in school-aged children
A. Mendy, E. R. Vieira, A. N. Albatineh and J. Gasana 1221

Egg-specifi c expression of protein with DNA methyltransferase activity in the biocarcinogenic liver fluke Clonorchis sinensis
Seon-Hee Kim, Hye-Jeong Cho, Woon-Mok Sohn, Chun-Seob Ahn, Yoon Kang, Hyou-Jung Yang and Young-Ai Bae 1228

Role of mitochondria in the leishmanicidal effects and toxicity of aryl phloroglucinol derivatives: nemorosone and guttiferone A
Larisa Monrota, Alexandra Lackova, Katarina Staniek, Omermary Cuesta-Rubo and Lars Gille 1239
