**10TH ANZAM OPERATIONS, SUPPLY CHAIN AND SERVICES MANAGEMENT SYMPOSIUM**

JOINTLY HOSTED BY MONASH UNIVERSITY AND THE UNIVERSITY OF MELBOURNE

Melbourne, 14 & 15 June 2012 – <http://www.anzam.org/wp-content/uploads/2010/12/10th-ANZAM-OM-Symposium-cfp.pdf>

Over the past decade, the nine previous symposia have provided the forum for academics and practitioners to share their research, knowledge and practical experiences in the operations, supply chain and services management areas. These symposia have contributed greatly to considerable progress being made towards these areas becoming a recognised discipline worthy of serious scholarship and establishing its own body of knowledge. In 2012 we celebrate the 10th year of the symposium. Looking forward to the next decade, we are now at a stage where it is necessary to address the next set of challenges facing the discipline. We need to further develop the body of knowledge, focusing on the ideas and theories relevant to the discipline. We invite contributions addressing issues and problems in the operations, supply chain and services management discipline. These contributions should aim to take the discipline forward and can be of any type, including the following:

- Conceptual papers addressing the theoretical basis of our discipline;
- Empirical studies and field based studies examining the fundamental concepts;
- Analytical modelling and simulation of processes and systems.

Papers submitted will be subjected to the double blind peer review process and will be published in the symposium proceedings.
