Series B — Applied Mathematics

Volume 38 Part 3

JANUARY 1997

Global strong solutions of equations of magnetohydrodynamic type	291
Marko A. Rojas-Medar and José Luiz Boldrini	
Subharmonic orbits in an anharmonic oscillator	307
J. R. Christie, K. Gopalsamy and M. P. Panizza	
Formation of singularities in a stratified fluid in the presence of a critical level	316
Anna S. Dostovalova and Sergey T. Simakov	
Some integral inequalities, with application to bounds for moments of a distribution	325
Sanja Varošaneć and Josip Pečarić	
Adaptive boundary-element methods for transmission problems	336
Carsten Carstensen and Ernst P. Stephan	
A C^0-Collocation-like method for elliptic equations on rectangular regions	368
Zbigniew Leyk	
Optimal driving strategies for a train on a track with continuously varying gradient	388
P. G. Howlett and J. Cheng	
Efficient multiple-term approximations for the generalised elliptic-type integrals	411
M. El-Gabali	

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 50 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A\$174 (Members A\$25) per annum by the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia. Second class postage is paid at Ann Arbor, Michigan 48106, USA. Postmaster: Send address change notices to Dr A. Howe, Journal of the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia.
