AGRONOMY JOURNAL

Agronomists throughout the world have found the *Agronomy Journal*, monthly publication and official organ of the American Society of Agronomy, a source of up-to-date reports on agronomic research. Workers in the fields of forages and pastures, small grain improvement, corn, fibre crops and legumes, cultural practices, and soil fertility, as well as closely allied fields of investigation find articles of lasting interest in the *Agronomy Journal*. Publication is open to members of the American Society of Agronomy.

\$15.00 per year, U.S., Canada, and pan-American countries; \$16.00 per year elsewhere.

Progress in the Physiology of Farm Animals

Edited by

JOHN HAMMOND

C.B.E., M.A., D.SC., F.R.S.

School of Agriculture, Cambridge

The work surveys the whole field of farm animal physiology, including poultry, with the object of collecting and interpreting the research carried out over the last twenty years, and making it readily understandable and easily assimilated. Each chapter has been written by a well-known authority who has taken an active part in the progress of his subject. Vols. 1 and 2 are now available, and the third volume will be published shortly.

Three volumes, 45s. per volume

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of live stock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental technique.

Vol. XXII. No. 88

CONTENTS

October 1954

- J. WYLLIE: The Production of Human Food in the United Kingdom before, during, and since the War.
A. A. ASKER, M. T. RAGAB and A. E. BASTAWISY: Effect of Crossing Egyptian Sheep on Growth and Development of Lambs.
P. O. RIPLEY: Weed Control in Western Canada.
B. C. AKEHURST: Turkish or Oriental Tobacco in Southern Rhodesia.
R. COLES and J. R. UNDERWOOD: Some Observations on Hatching Rates in Hens' Eggs.
P. T. WALKER: The Influence of Climate on an Outbreak of Wheat Aphid in Kenya.
J. W. S. REITH: Effects of Calcic and Magnesian Liming Materials on the Calcium and Magnesium Contents of Crops.
I. W. SELMAN and V. M. DURHAM: A Comparison of the Effects of Organic and Inorganic Fertilizers on the Growth and Yield of Potatoes.
H. C. PEREIRA and P. A. JONES: A Tillage Study in Kenya Coffee. Part II. The Effects of Tillage Practices on the Structure of the Soil. With Plates 6 and 7.
J. GORDON: Uniformity Trial on Gold Coast Cacao (A Note).
INDEXES.

New partner

*Sir James Scott Watson,
Editor, introduces*

The Agricultural Review

Within a lifetime farmers must be prepared to feed and help clothe a world population double its present size, states Sir James Scott Watson, Editor of the Agricultural Review, in his statement of aims.

To Meet the Challenge

Sir James, formerly Chief Scientific Adviser to the Ministry of Agriculture, introduces the new monthly farming journal as a partner to the farmer in meeting this challenge.

The Review, he says, will give farmers the information they need to keep abreast of achievements in the three all-important fields of scientific research, economic conditions and farm management. Sir James points out that the present dispersal of this knowledge in many reports and other publications—often couched in highly technical language—makes it difficult for the farmer to get at it.

for the farmer

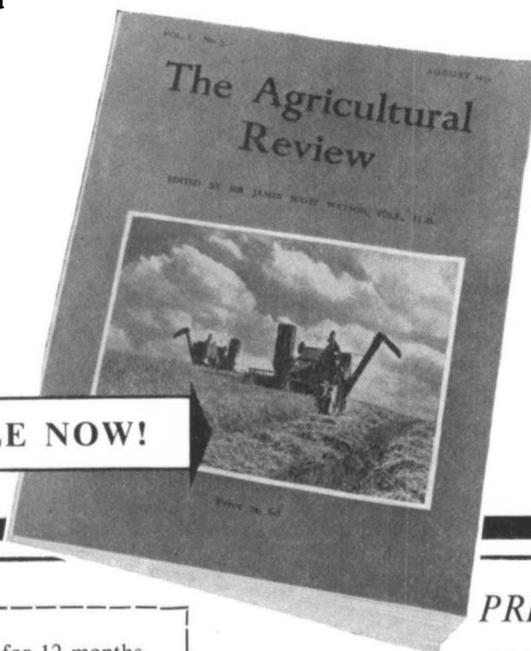

Sharing Experience

"Those whom we hope to serve", the Editor writes, "are the farmers of Western Europe and those working in broadly similar environments . . . North America and Australia and New Zealand have much to teach Europe about economy of manpower, while the Netherlands or Denmark can provide many an object-lesson in the intensive use of land".

Sir James, who set out on his remarkable agricultural career from his father's farm in Scotland, welcomes his new editorial duties as "something of an adventure". He asks for the support of readers with contributions, criticisms and suggestions.

PROFITABLE READING

The editorship of Sir James Scott Watson and the outstanding qualifications of his advisory editorial team assure a steadily high standard of contents. There is an important contribution each month by the Economist Intelligence Unit, as well as abstracts of research publications and book reviews. In the current issue W.A. Pool reviews Sir Thomas Dalling's Clive Behrens Lectures. C. A. Blagburn discusses "Yardsticks of Efficiency" in the first of a series of articles on farm economics and authorities in their field write on foot and mouth disease and protein levels in poultry rations. All progressive farmers and those concerned with farming progress will find this new journal rewarding reading.
