

## Subject Index to Volume 38

### A

#### Abuse

- alcohol, 49
- drug, 49

#### Alcohol abuse, 49

#### Age

- gestational, 65
- maternal, 57, 279

#### Analysis, survival, 253

#### Anomalies, congenital, 1, 27

#### Ascertainment, 1, 17, 27, 153

### B

#### Bed rest, 271

#### Behavior, neonatal, 49

#### Birthweight, 65, 71

### C

#### Cardiovascular disease, 27

#### Concordance, 253

#### Congenital anomalies, 1, 27

#### Contraception, 57

### D

#### Delivery, mode of, 271

### Differences

- intrapair, 37
- sex, 49

#### Discordance, 1, 17

#### Disease, cardiovascular, 27

#### Doppler ultrasound, 301

#### Down syndrome, 1

#### Drug abuse, 49

#### Duration of gestation, 71

### E

#### Encephalocele, 17

#### Enterocolitis, necrotising, 301

#### Epidemiology, 285

#### Etiopathology, 285

### F

#### Face, 37

#### Fecundity, 57

#### Fertility, 71

### G

#### Gastrointestinal malformations, 1

#### Genital malformations, 1

#### Gestation, duration of, 71

#### Gestational age, 65

## 384 Subject Index

### I

Intrapair differences, 37

### M

#### Malformations

- gastrointestinal, 1
- genital, 1

Maternal age, 57, 279

Mode of delivery, 271

Mortality, perinatal, 271

### N

Necrotising enterocolitis, 301

Neonatal behavior, 49

Neural tube defects, 17

### P

Parity, 57, 279

Patent ductus arteriosus, 315

Perinatal mortality, 271

Population based study, 285

Pregnancies, triplet, 301

Prevalence, 285

### Q

Questionnaire, 305

Quintuplets, 65

### R

#### Rate

- stillbirth, 65

twinning, 57

Respiratory distress syndrome, 315

### S

Sex differences, 49

Spina bifida, 17

Stereophotogrammetry, 37

Stillbirth rate, 65

Surveillance of triplets, 301

Survival analysis, 253

Syndactyly, 1

#### Syndrome

Down, 1

respiratory distress, 315

### T

Triplet pregnancies, 301

Triplets, surveillance of, 301

Twinning, 27

rate, 57

Twins, 1, 17, 37, 49, 71, 253, 279, 305

conjoined, 285

premature, 315

### U

Ultrasound, Doppler, 301

### W

Weight, birth-, 65, 71

### Z

Zygoty, 305
