

## INSTRUCTIONS TO AUTHORS

### *Scope*

Papers may describe original technical work, survey an area, or present a tutorial; and may be either short or long. Anything related to functional programming is of interest, including: *foundations* (semantics, abstract interpretation, lambda calculi, rewriting, logic, type theory, category theory); *implementation* (compilation, architectures, parallelism, garbage collection, I/O, debugging, profiling); *linguistics* (pure and impure language features, non-determinism, side effects, logical variables, relation to other programming paradigms, proofs about programs, program transformation, program synthesis, partial evaluation); *applications* (applications programs, practical experience, programming techniques, prototyping).

### *Book Reviews*

Books for review, or suggestions for reviews, should be sent to the reviews editor, Simon Thompson (address on inside front cover).

### *Submission of manuscripts*

Manuscripts for consideration for the *Journal of Functional Programming* should be submitted electronically, using the Manuscript Central System ([http://mc.manuscriptcentral.com/cup/jfp\\_submit](http://mc.manuscriptcentral.com/cup/jfp_submit)). This system will allow authors to benefit from faster review and earlier, online publication. The system will accept PDF files; most other files types will be automatically converted directly into PDF. Source files are required for any paper accepted for publication. Authors who are unable to submit online should contact the Editorial Office for assistance. Authors may want to consult the guidelines we offer to JFP referees (<http://journals.cambridge.org/action/displaySpecialPage?pageId=656>), to get an idea of the criteria that will be applied by referees.

The *Journal of Functional Programming* encourages authors of workshop and conference papers to submit enhanced versions of the same work to JFP. Typically, the version submitted to JFP should contain additional discussion, examples, or proofs. Only if a workshop or conference paper is exceptionally well presented and complete is it suitable for journal publication without significant revision. If another publisher holds copyright on an earlier version of an article, the enhanced version must differ sufficiently so that the author can assign copyright to Cambridge University Press.

### *Electronic manuscripts*

The publisher encourages submission of manuscripts written in LaTeX which can be used for direct typesetting. Authors using LaTeX should use the JFP LaTeX class file. This, along with related files, can be obtained using anonymous FTP. If you have difficulties obtaining these files, there is a help-line available via e-mail ([texline@cup.cam.ac.uk](mailto:texline@cup.cam.ac.uk)). While use of the JFP LaTeX class file is preferred, plain LaTeX or TeX files can also be accepted.

### *Web-accessible accompanying material for your paper*

You are encouraged to supply supporting material for your paper, which JFP will make permanently accessible over the web.

### *Offprints*

No paper offprints are provided, but a pdf of the published article will be sent to the corresponding author.

### *Incremental Publishing and DOIs*

The Journal of Functional Programming now publishes articles incrementally online (at Cambridge Journals Online: [journals.cambridge.org](http://journals.cambridge.org)) as soon as author corrections have been completed and before they join a printed issue. A new reference has now been added to the first page of the article in the journal catchline. This is the DOI—The Digital Object Identifier. This is a global publishers' standard. A unique DOI number is created for each published item. It can be used for citation purposes instead of volume, issue and page numbers. It therefore suits the early citation of articles which are published on the web before they have appeared in a printed issue. [journals.cambridge.org/JFP](http://journals.cambridge.org/JFP)

## SUBSCRIPTIONS

*Journal of Functional Programming* (ISSN: 0956-7968 print, 1469-7653 electronic) is published bimonthly in January, March, May, July, September and November. The subscription price (excluding VAT) of Volume 19, 2009, is £400 net (USA, Canada and Mexico US\$800) institutions print and electronic; institutions electronic only is £350, \$700; individuals print only is £130, \$260; Member rates available – please enquire; single parts cost £60 net (USA, Canada and Mexico US\$120) plus postage. Six parts form a volume. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Prices include delivery by air where appropriate. Application to mail at periodicals postage rates is pending at New York, NY and at additional mailing offices. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Postmaster: send address changes in USA, Canada and Mexico to *Journal of Functional Programming*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994–2133.

Claims for missing issues should be made immediately on receipt of the subsequent issue.

## COPYING

This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA. 01923, USA. Organisations in the USA who are also registered with the C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0956-7968/09 \$16.

Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

*For all other use*, permission should be sought from Cambridge or the American branch of Cambridge University Press.
