Reviews in Clinical Gerontology brings together specially commissioned international reviews on recent developments in geriatric medicine (including rehabilitation, nursing care and psychiatry of old age) and in biological, psychological and social gerontology. There is systematic coverage of the literature on a cyclical basis. All the major topics of interest are reviewed during the course of a five-year cycle. The issues build into a valuable source of reference for everyone working with elderly people.

Canadian Journal on Aging / La Revue canadienne du vieillissement
Published on behalf of the Canadian Association on Gerontology/ L’Association canadienne de gérontologie

Editor-in-Chief
Margaret J. Penning, University of Victoria, Canada

This journal disseminates the latest work of researchers in the social and biological sciences who study the older population of Canada and other countries; informs policy debates relevant to aging; seeks to improve the quality of life for Canada’s older population and for older populations in other parts of the world through the publication of research that focuses on the broad range of relevant issues; and encourages the exchange of the latest ideas in gerontological research.
