

# CONTENTS.

	PAGE
<i>The pure Archimedean polytopes in six and seven dimensions.</i> By H. S. M. COXETER, Trinity College. (Communicated by Professor H. F. BAKER) . . . . .	1
<i>Extension of a set of theorems in circle geometry.</i> By Mr J. H. GRACE, Peterhouse . . . . .	10
<i>On the structure of liquids and vitreous solids.</i> By Mr HAROLD JEFFREYS, St John's College . . . . .	19
<i>Note on the law that light-rays are the null geodesics of a gravitational field.</i> By Mr E. T. WHITTAKER, Trinity College, Professor of Mathematics, University of Edinburgh . . . . .	32
<i>A condition for inverting the order of integration in a repeated integral.</i> By Mr S. POLLARD, Trinity College . . . . .	35
<i>Two sets of conditions for expansion in a Laurent's series.</i> By MARGARET DELINA KENNEDY, Newnham College. (Communicated by Mr S. POLLARD) . . . . .	38
<i>On the quintic surface in space of five dimensions.</i> By F. BATH, Ph.D., King's College. (With One Text-figure) . . . . .	48
<i>On Reichstein's displacement principle.</i> By F. HURN CONSTABLE, Ph.D., Fellow of St John's College . . . . .	56
<i>Note on losses in cable sheaths.</i> By F. W. CARTER, Sc.D., St John's College. (With Three Text-figures) . . . . .	65
<i>A manometer for use with small Pitot tubes.</i> By Mr G. I. TAYLOR, Trinity College. (With One Text-figure) . . . . .	74
<i>The classical limit of the space distribution law of a gas in a field of force.</i> By N. F. MORT, B.A., St John's College . . . . .	76
<i>The specific heat of hydrogen at high temperatures.</i> By W. H. M'CREA, B.A., Trinity College. (With One Text-figure) . . . . .	80
<i>On the arc spectrum of antimony.</i> By S. L. MALURKAR, Sidney Sussex College. (Communicated by Mr R. H. FOWLER) . . . . .	85
<i>The wave mechanics of an atom with a non-Coulomb central field. Part I. Theory and Methods.</i> By D. R. HARTREE, Ph.D., St John's College . . . . .	89
<i>The wave mechanics of an atom with a non-Coulomb central field. Part II. Some Results and Discussion.</i> By D. R. HARTREE, Ph.D., St John's College. (With Five Text-figures) . . . . .	111
<i>The number of <math>\alpha</math>-particles emitted by thorium C+C'.</i> By Mr S. W. WATSON, Gonville and Caius College (1851 Exhibition Scholar, University of South Africa), and M. C. HENDERSON, Trinity College. (With One Text-figure) . . . . .	133
<i>The ionisation curve of an average <math>\alpha</math> particle.</i> By N. FEATHER, B.A., Trinity College, and R. R. NIMMO, Clare College, 1851 Exhibition Scholar, University of New Zealand. (With Four Text-figures) . . . . .	139
<i>The interference of light in a wedge.</i> By F. L. ARNOT, Trinity College. (Communicated by Professor Sir E. RUTHERFORD.) (With Seven Text-figures) . . . . .	150
<i>On the lens interferometer.</i> By Mr G. C. STEWARD, Gonville and Caius College. (With Two Text-figures) . . . . .	166
