

VOL. VII.—1893.

THE JOURNAL
OF
LARYNGOLOGY,
RHINOLOGY, AND OTOTOLOGY;

*AN ANALYTICAL RECORD OF CURRENT LITERATURE RELATING TO
THE THROAT, NOSE, AND EAR.*

EDITED BY

R. NORRIS WOLFENDEN, M.D. Cantab.,
JOHN MACINTYRE, M.B. Glasgow,

AND

DUNDAS GRANT, M.A., M.D., F.R.C.S. Eng.,

WITH THE ASSISTANCE OF

Dr. BARCLAY J. BARON (Bristol). Dr. SANDFORD (Cork).

And with the co-operation of

DR. RICARDO BOTEY (BARCELONA)
DR. BRYSON DELAVAN (NEW YORK)
DR. DRAISPUL (ST. PETERSBURG)
PROF. GUYE (AMSTERDAM)
DR. MIDDLEMASS HUNT (LIVERPOOL)
DR. VALERIUS IDELSON (BERNE)
DR. JOAL (PARIS)
DR. KARWOWSKI (WARSAW)
DR. JOHN N. MACKENZIE (BALTIMORE)
DR. GRAZZI (FLORENCE)
DR. SANDFORD (CORK)
DR. LUBET-BARBON (PARIS)

DR. G. W. MAJOR (MONTREAL)
PROF. MASSEI (NAPLES)
DR. W. ROBERTSON (NEWCASTLE-ON-TYNE)
DR. J. MICHAEL (HAMBURG)
DR. HOLGER MYGIND (COPENHAGEN)
DR. PORTER (ST. LOUIS)
DR. SAJOUS (PHILADELPHIA)
DR. SENDZIAK (WARSAW)
PROF. RAMON DE LA SOTA (SEVILLE)
DR. HICGUET (BRUSSELS)
DR. MILLIGAN (MANCHESTER)
DR. LICHTWITZ (BORDEAUX)

Published Monthly.

VOICE AND THROAT.

VEREKER CHLORIDE OF AMMONIUM INHALER.

In chronic catarrhal states of the mucous membrane of the nose, throat or bronchi, inhalations of the neutral fumes of the Vereker Inhaler are almost unequalled. They enable the engorged membrane to free its meshes of inflammatory deposit, and seem to act as resolvent. Deafness due to catarrh has been cured by this vapour. The Vereker Inhaler is a complete apparatus and incurs no special trouble in using. It is always ready for use.

Supplied to the Medical Profession by all Chemists at 5s. each.

CHLORATE OF POTASH AND BORAX "TABLOIDS."

The worth of Chlorate of Potash is greatly enhanced by the presence of Borax. Borax is generally known to quickly relieve hoarseness, irritation of the throat, and when taken early to avert a cold. It is considered an excellent antiseptic, correcting perverted oral secretions, cleansing the mouth, and imparting to an offensive breath the wholesomeness of perfect health. An excellent way to employ Borax is in the Chlorate of Potash and Borax "Tabloids."

Supplied to the Medical Profession by all Chemists at 4d. and 6d. per box.

HAZELINE.

One of the very best agents that can be used in catarrh of the nose and throat, by reason of its antiseptic and astringent properties, is Hazeline. Under its use a bad cold abates, and snuffing into the nostrils in catarrh gives comfort. As a gargle in sore throat, quinsy, pharyngitis and diphtheritic sore throat, it is very highly praised.

Hazeline supplied to the Medical Profession by all Chemists, in $\frac{1}{4}$ lb. and 1 lb. bottles, at 1s. 2d. and 3s. 6d.

VOICE "TABLOIDS."

The Voice "Tabloids" contain Cocaine, Chlorate of Potash, and Borax. Cocaine has been largely employed by laryngologists, and is highly valued in many throat affections. It allays irritability of the throat, and tones the mucous membrane of the vocal cords and throat generally. Fuller, clearer, and richer vocal tones follow its use. The best form in which to apply Cocaine for the voice and throat is in the Voice "Tabloids" with Chlorate of Potash and Borax.

Supplied to the Medical Profession by all Chemists in boxes of 30 and 80 at 8d. and 1s. 4d. each.

BURROUGHS, WELLCOME & CO., Snow Hill Buildings, London, E.C.
