

Physician – Infectious Disease/Hospital Epidemiology

Dartmouth-Hitchcock in Lebanon, NH and The Geisel School of Medicine at Dartmouth are seeking a Hospital Epidemiologist in the Section of Infectious Disease and International Health (IDIH). Dartmouth-Hitchcock is an organization committed to Population Health and Patient Safety. This is an opportunity for the right candidate to develop innovative programs both within the Dartmouth-Hitchcock Medical Center and regionally. This individual will dedicate 20% of his/her time to clinical care within the IDIH Section, at least 5% to teaching within the medical school, and the remainder to leadership, research, and practice of Hospital Epidemiology and Infection Prevention at Dartmouth-Hitchcock. The successful candidate will be board certified in Infectious Disease with active clinical and hospital epidemiology responsibilities, have an outstanding record of scholarly achievement and original research, and possess excellent interpersonal and mentoring skills as well as administrative ability and experience.

IDIH is a strong and stable clinical Section within the Department of Medicine. The core membership of the Collaborative Healthcare-associated Infection Prevention Program at Dartmouth-Hitchcock Medical Center currently includes two physicians, three infection preventionists, an operational leader, and a data manager. Candidates must be eligible to be licensed by the State of New Hampshire and qualify for a faculty appointment in the Department of Medicine at the Geisel School of Medicine at Dartmouth. Rank at the Geisel School of Medicine at Dartmouth will be at the level of Associate Professor or higher, commensurate with experience.

Dartmouth-Hitchcock is an academic medical center located in Lebanon, New Hampshire in the Upper Connecticut River Valley on the NH and VT Border. Home to Dartmouth College, the Upper Valley is a vibrant, academic and professional community offering excellent schools, lively arts, and an unmatched quality of life in a beautiful, rural setting. Amenities associated with urban areas in Boston MA, Burlington VT, and Montreal, QC are all within a few hours drive. Dartmouth-Hitchcock has been consistently ranked by U.S. News & World Report as One of America's Best Hospitals.

Epidemiology and Infection

Editor-in-Chief

Norman Noah, London School of Hygiene and Tropical Medicine, UK

Epidemiology and Infection publishes original reports and reviews on all aspects of infection in humans and animals. Particular emphasis is given to the epidemiology, prevention and control of infectious diseases. The field covered is broad and includes the zoonoses, tropical infections, food hygiene, vaccine studies, statistics and the clinical, social and public health aspects of infectious disease. Papers covering microbiology and immunology, which have an epidemiological relevance, are part of this broad field. Papers come from medical and veterinary scientists worldwide. It has become the key periodical in which to find the latest reports on recently discovered infections and new technology. For those concerned with policy and planning for the control of infections, the papers on mathematical modelling of epidemics caused by historical, current and emergent infections, will be of particular value.
