doi:10.1017/S095026880700862X

**Dembek, ZF, Kortepeter, MG and Pavlin, JA** (2007) REVIEW ARTICLE: Discernment between deliberate and natural infectious disease outbreaks. *Epidemiology and Infection* **135**, 353–371 (Published online 8 August 2006. doi: 10.1017/S0950268806007011)

The authors of the above article regret that several errors appear in their published paper:

*On Page 360:* In the section entitled ‘Case review of 1996 shigellosis food poisonings’, reference [22] should be reference [11].

*On Page 362:* In the section entitled ‘Case review of the 2000 Kosovo tularemia outbreak’, both references [77] should be reference [29]. Reference [82] should be reference [31].

doi:10.1017/S0950268807008618

**Struchiner, CJ and Halloran, ME** (2007) Randomization and baseline transmission in vaccine field trials. *Epidemiology and Infection* **135**, 181–194 (Published online 26 June 2006. doi: 10.1017/S0950268806006716)

The authors of the above article regret that there was an error in the heading for Table 4. It should read:

Table 4. *Homogeneous pre-vaccination susceptibility among sites; heterogeneity of vaccine effect within sites and confounding from exposure to infection; no boosting; increasing proportion exposed to infection in trial (A: 1/125, once; B: 1/2, once; F: 1/1, once; G: 2; H: 3; I: 4; J: 5; K: 6; L: 7; M: 8) ( $VE_c=0.5$ ;  $VE=0$ ;  $TP_{c0}=TP_0=1$ ;  $N_c=N=500$ )*
