TRENDS IN LINGUISTICS

DESCRIBING AND MODELING VARIATION IN GRAMMAR

*Edited by Andreas Dufter, Jürg
Fleischer, and Guido Seiler*

2009. viii, 410 pages.

Hardcover. RRP € 98.00 / *US\$ 152.00

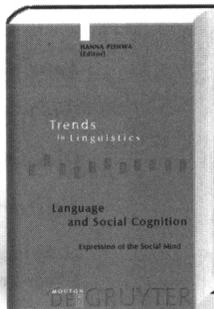

ISBN 978-3-11-020590-9

eBook. RRP € 110.00 / *US\$ 152.00

ISBN 978-3-11-021609-7

(Trends in Linguistics. Studies and
Monographs [TiLSM] 204)

The aim of the volume is to bridge the 'cultural gap' between sociolinguistics and theoretical linguistics in the study of variation. The various contributions seek to combine corpus-based and competence-based approaches. They document the plurality of current research into models of grammatical competence that live up to the challenge of variationist data.

LANGUAGE AND SOCIAL COGNITION

Expression of the Social Mind

Edited by Hanna Pishwa

2009. vi, 476 pages.

Hardcover. RRP € 118.00 / *US\$ 183.00

ISBN 978-3-11-020586-2

eBook. RRP € 132.00 / *US\$ 183.00

ISBN 978-3-11-021608-0

(Trends in Linguistics. Studies and
Monographs [TiLSM] 206)

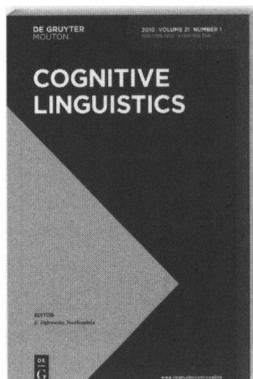

This interdisciplinary volume provides a novel perspective on social aspects of language. It views ways of how the acquisition and management of knowledge of ourselves and others is reflected in language. Hence, by combining the two disciplines social cognition and linguistics, it proceeds beyond cognitive linguistics by examining language from a wider perspective including cultural issues.

Four issues per volume (approx. 800 pages, Online version includes *Cognitive Linguistics Bibliography*)
ISSN 0936-5907 (Print); ISSN 1613-3641 (Online)

Cognitive Linguistics presents a forum for linguistic research of all kinds on the interaction between language and cognition. Cognitive linguistics focuses on language as an instrument for organizing, processing and conveying information, and the journal is devoted to high-quality research on topics such as:

- the structural characteristics of natural language categorization (such as prototypicality, cognitive models, metaphor, and imagery)
- the functional principles of linguistic organization (such as iconicity)
- the conceptual interface between syntax and semantics
- the relationship between language and thought, including matters of universality and language specificity
- the experiential background of language-in-use, including the cultural background, the discourse context, and the psychological environment of linguistic performance.
