

AFRICA BIBLIOGRAPHY 2003
Works on Africa published during 2003
T.A. Barringer

This authoritative guide to published works in African studies has been published annually since 1985. The *Africa Bibliography* includes a wide range of material: books, articles in journals, pamphlets, etc., covering the whole of Africa. It lists works published in a number of languages, such as Portuguese, French and German, as well as English; categorises by region, country and subject; and includes an author index and a detailed thematic index. The *Africa Bibliography* records publications on Africa of interest to students of Africa, principally in the social and environmental sciences, humanities and arts; though some items from the medical, biological and natural sciences, likely to be of interest to a reader from a social science/arts background, are included. This annual publication records the previous year's work in its field, with provision for retrospective inclusion of earlier items. It is prepared in association with the International African Institute's journal *Africa*.

The Foreword is by Sarah Heery who worked as a librarian in Ethiopia in 2003 and is now a freelance Librarian/Information Consultant.

AFRICA
Journal of the International African Institute

The premier journal devoted to the study of African societies and culture. Editorial policy encourages an interdisciplinary approach, involving the social sciences, history, the environment and life sciences, and aims to give increased attention to historical trends, issues of development and links between local and national levels of society. At the same time the journal maintains its commitment to the theoretically informed analysis of the realities of Africa and to the understanding of Africa's own cultural categories. *Africa* appears quarterly; each number contains four or five major articles, extensive review essays and substantial book reviews. Special issues are frequent. Send to the publisher or the Institute for a leaflet giving further details.
