Corrigendum

First published online: 2 March 2023

The authors would like to apologize for a typographical error on page 6. In Table 2, the data for 24-hours, line 3, is incorrect. The corrected Table should read:

Table 2. Mean rates (SD) for d' scores for dative and pseudoclefts rules. T-test reports for Rule-learning d' and Episodic-recognition d' on immediate, 24-hour and 1-week GJT tests.
