## TULANE STUDIES IN ROMANCE LANGUAGES AND LITERATURE

**Dorothy Moser Medlin**

**THE VERBAL ART OF JEAN-FRANCOIS REGNARD \$3.00**

A study of Regnard's style leads to a new appreciation of him as a comic writer in his own right. Dr. Medlin concludes: "For Regnard, plot, characterization, observation of manners, and *comédie de geste* are constantly subordinated to another type of comedy, which constitutes the vital spark and the underlying principle of all his plays: the comedy of words."

## THOMAS SHERIDAN OF SMOCK-ALLEY

By ESTHER SHELDON

This account of Thomas Sheridan's career as theater manager has been based on biographies written by his contemporaries, on 18th-century newspapers and pamphlets, and on letters written to and by Sheridan. The author also gives us much new information about Sheridan's relations with David Garrick. In an appendix, the author has included a Smock-Alley Calendar, giving a daily record of performances and casts. Most of the material in the Calendar has not been collected before and should be invaluable to theater historians.

## CENTRAL TO THE LITERATURE OF THE THEATRE

### THE THEATRICAL IMAGE

BY JAMES H. CLAY,

Associate Professor of Theatre Arts at Brandeis University

DANIEL S. KREMPEL,

Associate Professor of Drama at Syracuse University.

This exciting book comes to grips with the critical problems of discovering the playwright's intention and inventing valid ideas for communicating that intention. More and more, in both university and professional theatre, productions are being based on "concepts," "images," "metaphors." Until now, however, no book has been entirely devoted to what might be called interpretative invention for the theatre.

*The Theatrical Image* proposes a whole theory of theatrical form and meaning that can lead to new insights into theatre art and shows that the suggested techniques of interpretation grow out of the very nature of dramatic meaning. It features a "gallery of interpretations" describing in detail the production concepts behind, and the performance effect of, such interpretations as Tyrone Guthrie's *Oedipus Rex* and *Troilus and Cressida*, Peter Brook's *King Lear*, Max Reinhardt's *A Midsummer Night's Dream*, Laurence Olivier's *Hamlet*, and others. Provides numerous examples from all phases of production and all types of drama to illustrate both theory and theatrical applications.

Extensively illustrated. 320 pages, \$6.95 (tent.) Just published.
