Metabolism and Nutritional Studies

- Adipokines: in/f_l ammation and the pleiotropic role of white adipose tissue

- Resveratrol inclusion alleviated high-dietary-carbohydrate-induced glycogen deposition and immune response of largemouth bass, Micropterus salmoides

- Decreased nutrient digestibility due to viscosity is independent of the amount of dietary fibre fed to growing pigs

- The effect of supplemental resistant corn starch on gut performance and immune function of milk-fed Holstein calves during heat stress

- Metabolic and nutritional responses of Nile tilapia juveniles to dietary methionine sources

- Zinc deficiency as a possible risk factor for increased susceptibility and severity of Corona Virus Disease 19

- The effects of surgery on plasma/serum vitamin C concentrations: a systematic review and meta-analysis

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients

Dietary Surveys and Nutritional Epidemiology

- Prevalence of low protein intake in 80+-year-old community-dwelling adults and association with dietary patterns and modifiable risk factors: a cross-sectional study

- Changes in food intake from 1999 to 2012 among Mexican children and women

- The role of dietary anti-inflammatory foods on weight loss in overweight Mexican adults

- Changes in food intake from 1999 to 2012 among Mexican children and women

- Dietary in/f_l ammatory Index and disease severity and in/f_l ammatory status: a case–control study of COVID-19 patients

Behaviour, Appetite and Obesity

- Systematic review of the effects of pandemic con/f_i nements on body weight and their determinants

- Systematic review of the effects of pandemic con/f_i nements on body weight and their determinants

- Tipping the scale: the role of a national nutritional supplementation programme for pregnant mothers in reducing low birth weight and neonatal mortality in India

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients

- Total water intake and its contributors in infants and young children – CORRIGENDUM

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients – CORRIGENDUM

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients – CORRIGENDUM

Correspondence

- Total water intake and its contributors in infants and young children – CORRIGENDUM

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients

- Total water intake and its contributors in infants and young children – CORRIGENDUM

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients

- The relationship between Dietary Inflammatory Index and disease severity and inflammatory status: a case–control study of COVID-19 patients
The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognises the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Back volumes are available. Please contact Cambridge University Press for further information on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Claims

Directions to Contributors are available from the Society at the address below or can be found on the Society’s website at http://www.nutritionsoociety.org.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There is also an option to purchase offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to British Journal of Nutrition are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so at his/her own risk. Neither the Society nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal is printed on acid-free paper from renewable sources. Printed in Great Britain by Bell & Bain Ltd, Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.
