Big Business and the Crisis of German Democracy

Through the colorful world of Berlin’s grand hotels, this book charts a new history of German liberalism and explores the changing relationships among big business, society, and politics. Behind imposing facades, managers and workers were often the picture of orderly and harmonious service, despite living in sometimes uncomfortable proximity. Then, during World War I, class tensions rose to the surface and failed to resolve in the following years. Doubting the ability of the Weimar Republic to contain these conflicts, a group of hotel owners, some of the most prominent Jewish industrialists and financiers in the country, chose to let Adolf Hitler use their hotel, the Kaiserhof, as his Berlin headquarters in 1932. From a splendid suite opposite the chancellery, Hitler and his henchmen engineered the assumption of power, the death of the Weimar Republic, and the ruin of their hosts, the Kaiserhof’s owners: Jewish liberals now fleeing for their lives. Big Business and the Crisis of German Democracy asks how this came about and explores the decision-making processes that produced such catastrophic consequences. The German Historical Institute (GHI) is a center for advanced study and research whose purpose is to facilitate dialogue and collaboration among historians across national and disciplinary boundaries. The GHI conducts, promotes, and supports research in three core fields: German/European and Jewish history, the history of the Americas and transatlantic history, and global and transregional history. The GHI works closely with partner institutions and organizations to provide scholars from around the world with opportunities to extend their professional networks and build relationships across borders.
