CROPS AND SOILS REVIEW

- Fractions of soil boron: a review
  R. Padbhushan and D. Kumar

CROPS AND SOILS RESEARCH PAPERS

- Costs of preventive agronomic measures to reduce deoxynivalenol in wheat
  A. Zorn, T. Musa and M. Lips

- Wheat yield response to some organic and conventional farming conditions and the yield potential of mixtures
  A. C. Newton, D. C. Guy and K. Preedy

- Validation of microsatellite molecular markers linked with resistance to Bipolaris sorokiniana in wheat (Triticum aestivum L.)
  E. Tembo, J. Sibuya, P. Tongonan and L. Tembo

- Pathogenic fungal protein-induced resistance and its effects on vegetable diseases
  T.-C. Lin, C.-L. Lin, W.-C. Chung, K.-R. Chung and J.-W. Huang

- Tillering dynamics of Multiflora grass subjected to strategies of rotational grazing management

- Liming demand and plant growth improvements for an Oxisol under long-term no-till cropping
  A. C. Carreiro, F. C. C. Grobelo and A. M. Capulhos

- Water flow in soil from organic dairy rotations
  M. Lamané, J. Eriksen, P. H. Krogh and O. H. Jacobsen

- Maize root morphology responses to soil penetration resistance related to tillage and drought in a clayey soil
  Y. B. He, L. F. Lin and J. Z. Chen

ANIMAL RESEARCH PAPERS

- Modelling growth curves in Moghani sheep: comparison of non-linear mixed growth models and estimation of genetic relationship between growth curve parameters
  N. Ghaivi Hossein-Zadeh

- In situ and in vitro estimation of mineral release from common feedstuffs fed to cattle

- Ensiled Moringa oleifera: an antioxidant-rich feed that improves dairy cattle performance
