Journal of Experimental Political Science

The Journal of Experimental Political Science (JEPS) features research – be it theoretical, empirical, methodological, or some combination thereof – that utilizes experimental methods or experimental reasoning based on naturally occurring data. We define experimental methods broadly: research featuring random (or quasi-random) assignment of subjects to different treatments in an effort to isolate causal relationships between variables of interest. JEPS embraces all of the different types of experiments carried out as part of political science research, including survey experiments, laboratory experiments, field experiments, lab experiments in the field, natural and neurological experiments.

Manuscript submission
All submissions to JEPS should be made online through Editorial Manager at <www.editorialmanager.com/xps>. For complete instructions and submissions guidelines please visit <cambridge.org/xps/ifc>.

Subscription Information
The Journal of Experimental Political Science (ISSN: 2052-2630) is published thrice a year, in March, July, and November, by Cambridge University Press, One Liberty Plaza, New York, NY 10006, USA. The subscription price of Volume 5 (2018) including delivery by air where appropriate (but excluding VAT), is $342.00 ($214.00) for institutions print and online; $309.00 ($193.00) for institutions online only. 2018 subscription rates: Members of The Experimental Research Section of APSA receive a hard copy of the Journal of Experimental Political Science and have free access to the journal online for an annual charge of $21.00, or online access only for an annual charge of $12.00.

For single issues, please contact customer_service@cambridge.org.

Advertising
For information on display ad sizes, rates, and deadlines for copy, please visit the journal homepage at <cambridge.org/xps> or contact ad_sales@cambridge.org.
