International Psychogeriatrics

Issue Theme: Aging and Well-Being

CONTENTS

Guest Editorial

439 Aging successfully and healthfully
Ellen E. Lee

Commentary

443 Risk of vascular disease and cognitive function in very old adults
Satoshi J. Iriyama and Karen J. Blumenthal

447 The effects of loneliness and social isolation on cognitive functioning in older adults: a need for nuanced assessments
Barton P. Lipner

451 Looking for the healthy aging pathways to subjective well-being: the road to personal empowerment and enhanced self-care
Douglas Ziedonis

Theme Articles

455 Cardiovascular health and cognitive functioning among centenarians: a comparison between the Tokyo and Georgia centenarian studies
Peter Brown, Valeriy Gusev, Yauanchen-Aria, Yorinda Moksha, Mary Ann Johnson, Stephen Miller, Sherei, Mohammed, Leonard N. Price, and Markovitz's House

467 Loneliness interacts with family relationship in relation to cognitive function in Chinese older adults
Ada-W. T. Yang, Allen C. Lee, Shih-Chieh, and Yuan-Y. Lee

477 Effects of modernity and religiosity on subjective well-being in old age and young adulthood: exploring the pathways through mastery and purpose in life
Hsing-Jyh Chen and Chung-Fuh Cheng

Review

481 Is the Montreal Cognitive Assessment (MoCA) screening superior to the Mini-Mental State Examination (MMSE) in the detection of mild cognitive impairment (MCI) and Alzheimer's Disease (AD) in the elderly?
Greg C. C. Fidler, Leonardo Machado, Valerio L. Alcântara, Joséfran de Almeida, Maria L. Costa, Rosana C. C. Almeida, and Anstion N. Souppé

Original Research Articles

491 Cognitive load battery for evaluating elderly Chinese Americans
Karen L. Judt-Neuwirth, Caroline W. Zhu, Erin Bioffer, John Martin, Xiang Deng, Qing Huang, Helga Grossman, Deng-Xiong Cai, and Mary Sano

505 Subjective memory complaints predict baseline but not future cognitive function over three years: results from the Western Australia Memory Study
Hodges, Robinson, Johnstone, Lutsep, Katz, Rottier, Christensen, Marsden, Pedersen, Steppe, and Storandt

511 Cognitive test battery for evaluating elderly Chinese Americans
Clara Li, Judith Neugroschl, Carolyn W. Zhu, Mari Umpierre, Jane Martin, Xiaoyi Zeng, Qiying Huang, Hillel Grossman, Dongming Cai, and Mary Sano

513 Subjective memory complaints predict baseline but not future cognitive function over three years: results from the Western Australia Memory Study
Hodges, Robinson, Johnstone, Lutsep, Katz, Rottier, Christensen, Marsden, Pedersen, Steppe, and Storandt

525 Identification of odors, faces, cities, and naming of objects in patients with subjective cognitive decline, mild cognitive impairment and Alzheimer's disease: a longitudinal study
R. Tahmasebi, S. Zehetmayer, G. Pusswald, G. Kovacs, E. Stögmann, and J. Lehrner

541 PerIPHERAL INFLAMMATION IN MILD COGNITIVE IMPAIRMENT WITH POSSIBLE AND PROBABLE LATE-ONSET ALZHEIMER'S DISEASE

551 Depressive symptoms in relation to clinical symptom onset of mild cognitive impairment
Carol K. Chan, Anja Soldan, Corinne Pettigrew, Mei-Cheng Wang, Jiangxia Wang, Marilyn S. Albert, Paul B. Rosenberg, and BIOCARD Research Team

561 Correlates of sedentary behavior in middle-aged and old age people with mild cognitive impairment: a multinational study
Davy Vancampfort, Brendon Stubbs, Elvira Lara, Mathieu Vandenbulcke, Nathalie Swinnen, and Ai Koyanagi

571 Depressive symptoms in relation to clinical symptom onset of mild cognitive impairment
Carol K. Chan, Anja Soldan, Corinne Pettigrew, Mei-Cheng Wang, Jiangxia Wang, Marilyn S. Albert, Paul B. Rosenberg, and BIOCARD Research Team

581 A retrospective, population-based cohort study of driving under the influence, Alzheimer's disease diagnosis, and survival
Margaret Miller, Greg C. Fidler, and Justin Miner

591 Depression is more strongly associated with cognition in elderly women than men with type 2 diabetes
Laili Soleimani, Ramit Ravona-Springer, Anthony Heymann, Elisabeth Guerandommene, James Schrader, Ruth Zabriskie, Rachel Rose, James S. Shumway, Mary Sano, and Michel Schneider-Beer

597 Cortisol levels among older people with and without depression and dementia
Maria Lage-Kvinnsland, Jarle Nordby, Jarle Brevik, Karin Mensen, Carin-Helene Rasmussen, Sara Ravnas, Andersen, and Ingolfur

Brief Reports

601 Correlates of sedentary behavior in middle-aged and old age people with mild cognitive impairment: a multinational study
Davy Vancampfort, Brendon Stubbs, Elvira Lara, Mathieu Vandenbulcke, Nathalie Swinnen, and Ai Koyanagi

605 Depression is more strongly associated with cognition in elderly women than men with type 2 diabetes
Laili Soleimani, Ramit Ravona-Springer, Anthony Heymann, Elisabeth Guerandommene, James Schrader, Ruth Zabriskie, Rachel Rose, James S. Shumway, Mary Sano, and Michel Schneider-Beer

611 Depression is more strongly associated with cognition in elderly women than men with type 2 diabetes
Laili Soleimani, Ramit Ravona-Springer, Anthony Heymann, Elisabeth Guerandommene, James Schrader, Ruth Zabriskie, Rachel Rose, James S. Shumway, Mary Sano, and Michel Schneider-Beer
