Nurses working together make a difference

Every minute there are 11 new HIV infections worldwide. More than half occur in young people under the age of 24. With more than a billion young people on earth between the ages of 15 and 24, the spread of HIV is a great concern to health care professionals.

As leaders in primary health care, nurses worldwide do make a difference by providing education and care to those most vulnerable.

Program undertaken with the financial support of the Government of Canada through the Canadian International Development Agency (CIDA).

Nurses working together make a difference

In partnership with nurses, nursing associations, development and health organizations in more than 30 countries, the Department of International Policy and Development at CNA strengthens the contribution of nurses and their associations to the advancement of global health and equity.

Program undertaken with the financial support of the Government of Canada through the Canadian International Development Agency (CIDA).
