CURRENT ADVANCES IN MICROBIOLOGY

Chief Editor: **H SMITH**, *University of Leicester, UK*

Associate Editor: **P N CAMPBELL**, *Department of Biochemistry, University College, London WC1E 6BT, UK*

Editorial Office: *CABS Office, 132 New Walk, Leicester LE1 7QQ, UK*

Current Advances in Microbiology is a publication from the *Current Awareness in Biological Sciences (CABS)* Database, designed to provide biologists working in any area of the subject with a current literature searching service which is fast, comprehensive, economical and, above all, easy to use. By retrieving more than 35,000 microbiology titles annually, *Current Advances in Microbiology* enables pure and applied microbiologists to keep abreast of the ever-increasing literature being published in their subject area.

More than 2,100 biological journals covering all aspects of microbiology are scanned to provide a subject-categorized listing of titles, authors, bibliographic details and authors' addresses. Titles are presented under appropriate subject headings with full cross-referencing.

Reprints of any article cited in this journal can be ordered through a document delivery service. Full details are available on request.

Major Subject Areas Covered Include

Microbial biochemistry; Prokaryotes; Fungal growth and differentiation; Fungal physiology; Yeasts; Slime moulds; Protozoa; Viruses; Microbial ecology; Public health, water and sewage; Food microbiology; Biotechnology; Plant pathology; Medical and veterinary protozoology; Medical and veterinary mycology; Medical and veterinary bacteriology; Medical and veterinary virology; Antibiotics and chemotherapeutics; Antimicrobials.
