CORRIGENDUM

Age-Related Changes in Error Monitoring of an Everyday Task – CORRIGENDUM

S. Balouch, AND J. Rusted

In the original publication of ‘Age-Related Changes in Error Monitoring of an Everyday Task’ (Balouch and Rusted, published online 23 May 2013) there were errors introduced. On p3, line 250-51 the sentence should read as follows: “…followed by the neuropsychological measures and finally the TT.” Also, on p5, lines 359-60 should read as follows: “…(F[1,55] = 6.62; p = .02; η² = .11)…” The author regrets these errors.
