THE INSTITUTE OF NAVIGATION

COUNCIL 1962-63

PATRON

H.R.H. PRINCE PHILIP DUKE OF EDINBURGH, K.G., K.T.

PRESIDENT

Dr. G. E. R. Deacon, C.B.E., F.R.S.

VICE-PRESIDENTS

Dr. D. E. Adams Rear-Admiral E. G. Irving, C.B., O.B.E.

HONORARY TREASURER Mr. J. E. D. Williams

CHAIRMAN OF THE TECHNICAL COMMITTEE Wing Commander E. W. Anderson, O.B.E., D.F.C., A.F.C.

CHAIRMAN OF THE MEMBERSHIP AND FELLOWSHIP COMMITTEE Captain A. J. R. Tyrrell

MEMBERS OF COUNCIL

Captain R. C. Alabaster,	Wing Commander D. F. H.				
D.S.O., D.F.C.	Grocott, A.F.C.				
Mr. G. E. Beck	Lieut. Commander J. H. Hard				
Captain M. E. Butler Bowdon,	wick, R.N.				
O.B.E., R.N.	Ain Vice Membel W. E. Oulton				
Mr. F. G. G. Carr, c.b.e.	Air Vice Marshal W. E. Oulton,				
Mr. Francis Chichester	C.B., C.B.E., D.S.O., D.F.C.				
Captain W. R. Colbeck, R.N.R.	Captain G. S. Ritchie, D.s.c., R.N.				

The directors of navigation at the Admiralty, the Air Ministry and the Ministry of Transport and Civil Aviation are invited to attend meetings of the Council as *ex-officio* members.

EXECUTIVE SECRETARY M. W. Richey

CONTENTS

PRESIDENTIAL ADDRESS: THE VALUE OF RESEARCH TO NAVIGATION.

MADE AND PRINTED IN GREAT BRITAIN BY William Clowes and Sons limited London and Beccles

THE INSTITUTE OF NAVIGATION

THE OBJECT of the Institute is to unite in one body those who are concerned with or who are interested in the science and art of navigation. Membership is not restricted to those who hold professional qualifications, but is open to others who wish to further the aims of the Institute.

By coordinating the knowledge and achievements of marine and air navigators, scientists and those associated with the development and production of navigational equipment, the work of the Institute is directed towards raising the standard of navigation. In the field of education it is the aim of the Institute to bring practical navigators into contact with teachers and research workers to increase a common appreciation of the issues involved. It is an object of the Institute to encourage research in equipment and methods; through its publications it gives a wide circulation to original work on navigation so that new developments and suggestions can be appreciated by those most directly concerned with them.

The activities of the Institute include the holding of monthly meetings to discuss specific problems, the publication of a Journal and of other works concerned with different aspects of navigation, and such other activities as the Council may deem necessary to promote knowledge in navigation and its associated sciences.

The Journal of the Institute of Navigation is issued free each quarter to all members and contains a full account of the Institute's proceedings. It prints the papers which are presented at meetings, together with their ensuing discussion, and other original papers contributing to the science of navigation. It also contains a record of current navigational work, reviews of important books, and general papers of interest to navigators and those with similar interests.

The work of the Institute is coordinated with that of similar societies abroad, and in particular with the work of the United States and Commonwealth Institutes of Navigation, whose proceedings are available to members.

Membership. There are five classes of membership of the Institute:

(1) HONORARY MEMBERS, who shall be distinguished persons upon whom the Council may see fit to confer an honorary distinction.

(2) FELLOWS, who shall be members, of at least three years' standing who, in the opinion of the Council, have made a contribution of value to navigation.

(3) MEMBERS, who shall be persons over twenty-one years of age who can satisfy the Council of their interest in navigation.

(4) STUDENT MEMBERS, who shall be persons under twenty-five years of age studying with a view to making navigation, or an allied interest, their career.

(5) CORPORATE MEMBERS, who shall be companies, universities, navigation schools, government departments and other organizations, here and abroad, who are directly or indirectly interested in the science of navigation. Corporate Members are entitled to send representatives to all Institute meetings and to receive six copies of the *Journal*, and other publications. They are encouraged to take an active part in the Institute's work. Application should be by letter addressed to the Executive Secretary.

Subscriptions. Annual subscriptions to the Institute are payable in advance as follows:

Members and Fellows			Three guineas
Student Members .			Half a guinea
Corporate Members	*		Thirty guineas

The Institute's financial year begins on 1 July. Members in any category who are elected after 1 January in any year are only due for one half of their subscription until 1 July, when the full subscription for the next year becomes due.
