Glasgow Mathematical Journal

EDITOR-IN-CHIEF: Dr. B. Owens, School of Mathematics and Statistics, University of Glasgow

SUBJECT EDITORS:
Algebra
Professor J. Grabowski, Department of Mathematics & Statistics, Lancaster University

Algebraic Geometry
Professor V. Mazorchuk, Department of Mathematics, University of Uppsala, Sweden

Analysis
Professor P. J. Hollywood, School of Mathematics, University of Glasgow

Mathematical Physics
Professor G. Brown, School of Mathematics, University of Warwick

Professor M. Majid, School of Mathematics and Statistics, University of Leeds

Number Theory
Professor T. Dokchitser, Department of Mathematics, University of Bristol

Algebraic Geometry
Professor J. Grabowski, School of Mathematics and Statistics, University of Glasgow

Algebraic Topology
Professor J. Grabowski, School of Mathematics and Statistics, University of Glasgow

Analysis
Professor V. Mazorchuk, Department of Mathematics, University of Uppsala, Sweden

Mathematical Physics
Professor P. J. Hollywood, School of Mathematics, University of Glasgow

Number Theory
Professor T. Dokchitser, Department of Mathematics, University of Bristol

SUBSCRIPTIONS
Glasgow Mathematical Journal (ISSN 0017–0895) is published in January, May and September. Three parts form volume. The subscription price of volume 61 (2019) (which includes electronic access and postage) is £294 net (USA, Canada and Mexico US$513). The electronic-only price available to institutional subscribers is £229 (US$411 in the USA, Canada and Mexico). Single parts cost £106 (USA, Canada and Mexico US$187) plus postage. Prices include delivery by air where appropriate.

Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfillment Department, University Printing House, Shaftesbury Road, Cambridge CB2 8BS, UK, or in the USA, Canada and Mexico: Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available direct to the publisher: Cambridge University Press, Journals Fulfillment Department, University Printing House, Shaftesbury Road, Cambridge CB2 8BS, UK, or in the USA, Canada and Mexico: Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available.

COPYING
This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA (www.copyright.com). Organizations in the USA who are also registered with CCC may copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to the Copyright Clearance Center. This consent does not extend to multiple copying for promotional or commercial purposes.

For information on reproduction rights please contact Cambridge University Press.

For further information on other Press titles access cambridge.org/journals.

SUBMISSIONS
The Glasgow Mathematical Journal is the continuation of the Proceedings of the Glasgow Mathematical Association. It was founded in 1952 by the late Professor E. T. Copson and is published with the support of the University Court of the University of Glasgow. The present name was adopted in 1967 and since 1987 the Journal has been owned by the Glasgow Mathematical Journal Trust, an independent charitable trust (Scottish Charity Number SC006617).

Editorial Policy
The Glasgow Mathematical Journal publishes high quality original research papers in pure and applied mathematics. Its policy is to feature a wide variety of research areas and it welcomes the submission of research papers from all parts of the world. Selection for publication is on the basis of reports from specialist referees commissioned by the Subject Editors or Editor-in-Chief.

Submission of Manuscripts
The journal uses an online submission and refereeing system operated by ScholarOne Manuscripts. Details on how to submit a paper may be found at http://mc.manuscriptcentral.com/gmj.

Upon acceptance of a paper, the author will be asked to transfer copyright to the Glasgow Mathematical Journal Trust.

Layout of manuscripts
Papers should be typed or word-processed in double spacing throughout, with wide margins and on one side of the paper. They should be prepared so as to conform to the practice in current issues of the Journal and should not exceed more than 30 printed pages. References, tables and illustrations should be kept to a reasonable number. Authors are reminded that they should retain a copy of anything submitted for publication since neither the Journal nor the publisher can accept liability for any loss.

Illustrations
Text figures must be suitable for direct photographic reproduction and supplied separate from the text but allocated clearly to sections of the text. Low resolution versions may be uploaded as submission as separate files. Originals of figures should not be sent until the paper has been accepted. A list of captions for figures should be attached separately. Black and white figures are free for both online and print publication, colour figures are free for online-only publication only. Colour figures for print publication are subjected to RightsLink charges (£200/$320 per figure). Figures should be submitted in the Encapsulated PostScript (EPS/eps) format. When that is not possible, Word documents containing figures and illustrations in .jpg format are also acceptable.

References
References should be placed at the end of the paper, arranged and numbered in alphabetical order of the author’s names. Titles of journals should be abbreviated as in Mathematical Reviews. In the text, reference numbers should be enclosed in square brackets to distinguish them from formula numbers which should be quoted in round brackets. A reference to a book should give the author, title (in italics), edition, publisher, year of publication, e.g. [1] P. T. Johnstone, Stone Spaces, Cambridge Studies in Advanced Math. no. 3 (Cambridge University Press, 1982).

Proofreading
Prior to publication sets of proofs of each paper will be sent to authors. For papers with more than one author the proofs are sent to the first named author unless the Editors receive other instructions. Authors are asked to correct and return proofs promptly. Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for excessive corrections of nontypographical errors. No page charge is made.

Offprints
No paper offprints are provided, but the corresponding author will be sent the pdf of the published article. Print offprints may be purchased at extra cost at proof stage.

Grants
The Glasgow Mathematical Journal Trust Fund offers grants in support of mathematical projects and events of demonstrable benefit to mathematics in Scotland. Further details and application forms can be obtained from http://www.cams.org.uk.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.
