Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of JMR and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the Journal of Materials Research electronically via ScholarOne manuscripts, at the following website address: http://mc.manuscriptcentral.com/jmr. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 6 1/2 x 9 in. paper, and saved as .doc, .pdf, .rtf, or .ps files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xsl or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all author names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the JMR keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to JMR who have related material under consideration or in press elsewhere should send a copy of the related material to JMR at the time of submission. While their manuscripts are under consideration at JMR, authors must disclose any such related material.

To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: Journal of Materials Research occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. JMR will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author’s request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author’s responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

POSTMASTER: Send address changes to Journal of Materials Research, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, Journal of Materials Research, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue’s actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in Journal of Materials Research may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via the Cambridge Journals Online website. To determine availability, visit the appropriate page for the JMR back issue desired (www.journals.cambridge.org/jmr).

Individual member subscriptions are for personal use only.

Cover: Microscopical investigation of NPs. TEM (Transmission Electron Microscopy) micrographs of ZnO NPs dispersed in polymer solution that is later transformed to DLC (diamond-like carbon). [S. Buchegger, C. Vogel, R. Herrmann, B. Stritzker, A. Wixforth, C. Westerhausen: Antibacterial metal ion release from diamond-like carbon modified surfaces for novel multifunctional implant materials. p. 2571].
INVITED PAPER

2549–2570 Inorganic dissolvable electronics: materials and devices for biomedicine and environment
Huanyu Cheng

ARTICLES

2571–2577 Antibacterial metal ion release from diamond-like carbon modified surfaces for novel multifunctional implant materials
Sascha Buchegger, Caroline Vogel, Rudolf Hermann, Bernd Stritzker, Achim Wixforth, Christoph Westerhausen

2578–2589 Calligraphic solar cells: acknowledging paper and pencil
Mallika Dasari, Pradeep Ramiah Rajasekaran, Ratnasabapathy Iyer, Punit Kohli

2590–2597 Catalytic performance and SO2 tolerance of tetragonal-zirconia-based catalysts for low-temperature selective catalytic reduction
Rong Liu, Lingchen Ji, Yifan Xu, Fei Ye, Feng Jia

2598–2607 Synthesis and characterization of robust Ag2S/Ag2WO4 composite microrods with enhanced photocatalytic performance
Hongbo He, Shuangshuang Xue, Zhen Wu, Changlin Yu, Kai Yang, Lihua Zhu, Wanqin Zhou, Renyue Liu

2608–2616 Size-controllable synthesis of Fe3O4 nanoparticles through oxidation–precipitation method as heterogeneous Fenton catalyst
Dong Wan, Wenbing Li, Guanghua Wang, Xiaobi Wei

2617–2626 Density functional theory study on the adsorption of H, OH, and CO and coadsorption of CO with H/OH on the Pt2Ru3 surfaces
Md. Khorshed Alam, Shuhei Saito, Hiromitsu Takaba

2627–2639 Photocatalytic oxidation of phenol for water treatment using a BiVO4 thin-film photoanode

2640–2648 Hydrothermal synthesis of 3D Ba5Ta4O15 flower-like microsphere photocatalyst with high photocatalytic properties
Dongbo Xu, Weidong Shi, Chao Xu, Songbo Yang, Hongye Bai, Chengjie Song, Biyi Chen

2649–2661 Electrical characterization of quasi fullerene junctions formed with different metallic electrodes
Rupan Preet Kaur, Ravinder Singh Sawhney, Derick Engles

2662–2671 Electrospun polyacrylonitrile/magnetic Fe3O4–polyhedral oligomeric silsesquioxanes nanocomposite fibers with enhanced filter performance for electrets filter media
Xiaoyan Song, Guoqing Cheng, Bowen Cheng, Jinfeng Xing

2672–2685 A multi-indent approach to detect the surface of soft materials during nanoindentation
Jie Wei, Barbara L. McFarlin, Amy J. Wagoner Johnson

2686–2694 Effect of testing conditions on the compressive plasticity of bulk metallic glasses
Yunpeng Jiang

2695–2705 Experimental phase diagram of SiC in CH3SiCl3–Ar–H2 system produced by fluidized bed chemical vapor deposition and its nuclear applications
Rongzheng Liu, Malin Liu, Jiaxing Chang

(Continued)
Characterization and properties of intermetallic Al$_3$Ti alloy synthesized by reactive foil sintering in vacuum

Ningxia Wei, Xiaoxiao Han, Xueyi Zhang, Yang Cao, Chunhuan Guo, Zichuan Lu, Fengchun Jiang
