WORKSHOP IN RESEARCH METHODS FOR PSYCHIATRY

The University of Birmingham and the Research Committee of the College are planning an intensive residential course to deal with practical aspects of carrying out psychiatric research. It is envisaged that this will be particularly appropriate for psychiatrists in training, but others will not be excluded. There will be discussion papers and small group seminars dealing with specific research problems. It is hoped that this workshop will act as a stimulus to initiate research.

The course will take place from 21-24 May at Stowe House, Lichfield, and the number of participants will be limited. Enquiries should be addressed to Dr A. C. P. Sims, Department of Psychiatry, Queen Elizabeth Hospital, Birmingham B15 2TH.
