Editorial Acknowledgement

The Behavioral and Brain Sciences and Cambridge University Press are very pleased to acknowledge a grant from the Alfred P. Sloan Foundation. This award will defray some of the extraordinary editorial costs involved in the establishment and implementation of the BBS project. It will also contribute to strengthening and expanding the BBS open peer commentary service through the use of computer-assisted bibliographic retrieval methods for selecting topics, authors and commentators.

We are grateful to the Foundation for its generous support at this critical stage in the development of the BBS treatment process to enhance communication in the cognitive sciences.
BBS Associateship

Qualified professionals in the biobehavioral sciences who have either (1) been nominated by a current BBS Associate, (2) referred for BBS, or (3) had a comment or article accepted for publication are eligible to become BBS Associates. Editors of learned journals and officers of learned societies in the biobehavioral sciences are invited to become BBS Associates ex officio. Detailed protocols cards indicating each Associate’s specialization and interest are maintained by BBS to aid in commentator selection. Associates have a direct role in shaping BBS policy and, starting with the 1990 volume, are eligible to receive the journal at a special rate. Please write to the editor for further information.

BBS Associates as of October 1979:

Aber, Wm. L. (Humanities) Ill. Inst. Tech.
Albert, D.J. (Psychology) Univ. Brit. Columbia
Ainsworth, Mary D. Salter (Psychology) Univ. Virginia
Altman, Stuart (Biology) Univ. Chicago
Andrew, R.J. (Biology) Univ. Sunax
Applewhite, Philip B. (Biology) Yale Univ.
