

## ERRATUM

In the September 2012 issue of the journal, in the article by Thom et al (Thom KA, Maragakis LL, Richards K, Johnson JK, Roup B, Lawson P, Harris AD, Fuss EP, Pass MA, Blythe D, Perencevich EN, Wilson L, and the Maryland MDRO Prevention Collaborative. Assessing the burden of *Acinetobacter baumannii* in Maryland: a statewide cross-sectional period

prevalence survey. *Infect Control Hosp Epidemiol* 2012;33(9): 883-888), there are errors in footnote c for Table 1 and footnote b for Table 2. Both footnotes should read “Resistant to  $\geq 1$  agent in all but  $\leq 2$  antimicrobial categories” (not “Resistant to  $\geq 1$  agent in  $\leq 2$  antimicrobial categories”). The authors regret this error.
