Aims and Scope: The Journal of the International Neuropsychological Society welcomes original, creative, high quality research papers covering all areas of neuropsychology. The focus of articles may be primarily experimental, more applied or clinical. Contributions will broadly reflect the interest of all areas of neuropsychology, including but not limited to: developmental neuropsychology, child neuropsychology, environmental psychology, neuropsychological correlates of aging, neuropsychological correlates of neurodegenerative diseases, neuropsychological correlates of mental disorders, neuropsychological correlates of specific brain disorders, neuropsychological correlates of cognitive processes, neuroimaging, and electrophysiology. Book Reviews will also be published.
