NEW FOR 2010

Journal of Developmental Origins of Health and Disease

Published in association with the International Society for Developmental Origins of Health and Disease

Editor-in-chief
Michael G Ross, Harbor-UCLA (University of California, Los Angeles) Medical Center, USA

A new multi-disciplinary journal linking basic science to applied science; focusing on how the environment during early animal and human development, and interactions between environmental and genetic factors, influence health and risk of disease in later life. The journal will publish original research articles, short communications, reviews, and regular themed issues with guest editors.
