SUBSCRIPTIONS

The *Journal of Fluid Mechanics* (ISSN 0022-1120) is published *semimonthly* in 24 volumes each year. The subscription price (excluding VAT, but including postage) to volumes 330–353, 1997, is £792 (US \$1422 in the USA, Canada and Mexico) for institutions; £396 (US \$686) for individuals. Single volumes cost £36 (US \$64 in the USA, Canada and Mexico) plus postage. Orders, which must be accompanied by payment, should be sent to any bookseller or subscription agent, or direct to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU. Subscriptions in the USA, Canada and Mexico should be sent to Cambridge University Press, Journals Department, 40 West 20th Street, New York, NY 10011–4211. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Copies of the *Journal* for subscribers in the USA, Canada and Mexico are sent by air to New York. Periodicals postage is paid at New York, NY, and at additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to *Journal of Fluid Mechanics*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573–4930. Claims for missing issues can only be considered if made immediately upon receipt of the subsequent issue. Copies of back numbers are available from Cambridge University Press.

NOTES FOR AUTHORS

Authors wishing to have papers published in the *Journal* should send them to any editor, choosing one in their own or a neighbouring country where possible. The submission of four copies will expedite assessment, although it may not be possible to return all these copies. Original drawings should not be sent until the paper is accepted. The initial submission will be acknowledged by postcard but not subsequent communications. Submission of a paper implies a declaration by the author that the work is not being considered for publication elsewhere and that it has not already been considered by a different editor of the *Journal*. Reports on conferences must be submitted within three months of the meeting.

Authors are urged to write their papers clearly and attractively, so that their work will be readily understood by readers. Manuscripts should be typed in *double spacing* on one side of the paper only, with references listed at the end in alphabetical order of authors and with a separate list of figure captions. Original figures should be of high quality, and dot fills should be kept to 100 lines per inch or lower. Lettering will be inserted by the printer and should be shown on a copy of the figures, together with the relevant captions, rather than on the originals. Extensive detailed mathematical relations, tables or figures likely to be useful only to a few specialists may be held in the editorial files, with copies being made available to readers on request. There is no charge for publication, although the cost of any colour figures (£500 per page) must be borne by authors. An author is entitled to 50 offprints of the paper free of charge, and additional offprints can be purchased if ordered when proofs are returned.

In a case of serious disagreement between the author and an editor concerning the merits of a submitted paper, the author may appeal for an independent assessment of the paper. If the two Editors agree to this request, one of them acting as Arbiter will conduct the assessment.

ELECTRONIC SUBMISSION OF PAPERS (in finally accepted form only)

Papers accepted for publication can be printed directly from author's electronic files in LaTeX using a JFM macro, and authors are strongly encouraged to use this option. The style file (JFM.sty) together with a guide to its use (JFMguide.tex), sample pages (JFMsampl.tex) and a guide to editorial style and notation (JFMnot.tex) or the corresponding LaTeX2e files jfm.cls, jfm2egui.tex, jfm2esam.tex, jfm2enot.tex, are available as follows:

- via anonymous ftp from the Cambridge University Press at ftp.cup.cam.ac.uk; the files are in the directory /pub/texarchive/journals/latex/jfm-sty, or /jfm-cls for LaTeX2e concatenated in the single file jfmcls.ltx;
- on a pc or Macintosh disk from the JFM Editorial Office, Dept of Applied Mathematics & Theoretical Physics, Silver Street, Cambridge CB3 9EW, UK.

These files will be updated periodically: please make sure that you have the latest version (v1.3, LaTeX; v1.0, LaTeX2e). While use of the JFM LaTeX macro is preferred, ordinary LaTeX or plain TeX files can also be accepted.

When the paper has been accepted for publication, and only then, a hard copy of the final version, including the figures, should be sent to the Editor handling the paper; the identical TeX file can either accompany this hard copy on a pc or Macintosh disk or be sent by e-mail to the Editorial Assistant at the address given below.

Note that papers must be suitably prepared, adhering closely to JFM editorial requirements for notation, English and presentation. Any editorial changes will be made by the printer and if these are numerous it may be more efficient to set the paper conventionally.

If you have any questions or comments please contact the JFM Editorial Office at the above address or at jfm@damtp.cam.ac.uk.
