Canadian Journal on Aging / La Revue canadienne du vieillissement

Published on behalf of the Canadian Association on Gerontology/
L’Association canadienne de gérontologie

Editor-in-Chief
Margaret J. Penning, University of Victoria, Canada

This journal disseminates the latest work of researchers in the social and biological sciences who study the older population of Canada and other countries; informs policy debates relevant to aging; seeks to improve the quality of life for Canada’s older population and for older populations in other parts of the world through the publication of research that focuses on the broad range of relevant issues; and encourages the exchange of the latest ideas in gerontological research.

The Social Policy Digest is designed as a key resource for all those working in UK social policy - policy-makers, researchers, teachers and students, campaigners, journalists, and practitioners. It provides an easily accessible listing of new developments across the whole social policy field.

The Digest is a companion to two journals - the Journal of Social Policy and Social Policy and Society - both of which are published on behalf of the Social Policy Association by Cambridge University Press.
Social Policy and Society is an international academic journal sponsored by the UK Social Policy Association. The journal welcomes stimulating original articles that draw upon contemporary policy-related research and associated developments in the social sciences. Each issue contains peer reviewed articles reflecting topical debates and issues within social policy and uniquely, a themed section, edited by a Guest Editor(s). Every themed section includes an introductory piece, a set of peer reviewed articles, a selected review of the key literature, plus a guide to key sources in the area.

Social Policy and Society is part of the ’Social Policy Package’ along with the Journal of Social Policy.
Instructions for contributors

All papers must be submitted using Manuscript Central through the journal’s website at: journals.cambridge.org/aso

All books for review should be sent to: Stella Allinson, Review Editors’ Assistant, Ageing & Society, Faculty of Health and Social Care, The Open University, Walton Hall, Milton Keynes, MK7 6AA, UK.

Submission requirements

Submission of an article is taken to imply that it has not been published elsewhere. Authors will be required to confirm on submission of their article that the manuscript has been submitted solely to this journal and is not published, in press, or submitted elsewhere. Papers with more than one author must designate a corresponding author. The corresponding author must confirm that co-authors have read the paper and agree to its submission.

The corresponding author should prepare (a) a complete text and (b) complete text minus the title page, acknowledgements, and any running headers of author names, to allow blinded review.

The stereotypical presentation of individuals or social groupings, including the use of ageist language, must be avoided.

Articles must be between 3,000 and 9,000 words (excluding the abstract and references). All contributions (including reviews) should be typed double-spaced with at least one-inch or two-centimetre margins throughout (including notes and the list of references).

Most research articles usually have the following sections in sequence: Title page, Abstract (200–300 words), Keywords (three to eight), Main text, Statement of ethical approval as appropriate, Statement of funding, Declaration of contribution of authors, Acknowledgements, Notes, References, Correspondence address for lead author. The tables and figures should be presented one to a page in sequence at the end of the paper.

The title page should give the title of the article and the author(s)’ names, affiliations and postal and email addresses.

Authors are asked to follow the current style conventions as closely as possible. Please consult the most recent issue of the journal and download the full instructions for contributors from the journal’s website: journals.cambridge.org/aso.

Proofs and offprints

Proofs will be sent to the corresponding author as a PDF via email for final proof reading. The proofs should be checked and any corrections returned within 2 days of receipt. The publisher reserves the right to charge authors for excessive correction of non-typographical errors.

Authors will receive a PDF of the published paper and a copy of the journal, to go to the corresponding author. If offprints are required, these must be purchased at proof stage.
