Parasitology

EDITOR-IN-CHIEF
R. S. PHILLIPS

EDITOR—SPECIAL ISSUES
J. T. ELLIS

EDITORS
A. BELL, A. HEMPHILL, C. HOLLAND, D. P. KNOX, J. WASTLING

EDITORIAL POLICY
Parasitology publishes definitive papers on all aspects of pure and applied parasitology including biochemistry, molecular biology, immunology, genetics, ecology and physiology and also the application of new techniques, long-term epidemiology studies, advances in the understanding of life-cycles, chemotherapy and major systematic revisions. Papers should normally be full length with an explanatory introduction and detailed discussion of the findings reported. Shorter reports of particularly important findings will also be considered.

To submit papers online, go to http://mc.manuscriptcentral.com/par/

Parasitology (ISSN 0031–1820) is published monthly and semi-monthly in April and September.

Subscriptions may be sent to any bookseller or subscription agent or direct to the publisher: Cambridge University Press, University Printing House, Cambridge CB2 8BS, UK. Subscriptions in the USA, Canada and Mexico should be sent to Cambridge University Press, Journals Fulfilment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. All orders must be accompanied by payment. The subscription price (excluding VAT) of volume 142, 2015 which includes print and electronic access is £1330 (US $2265 in the USA, Canada and Mexico), for fourteen parts, the electronic-only price for institutional subscribers is £130 or US $222 each (plus postage). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should add VAT at their country’s rate. VAT registered subscribers should add VAT at their country’s rate. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 050, Japan. Periodicals postage paid at New York, NY and at additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to Parasitology, Cambridge University Press, 10 Brook Hill Drive, West Nyack, New York 10994–2133.

Information on back volumes, permissions and advertising is given on the inside back cover.

Internet access. This journal is included in the Cambridge Journals Online service which can be found at http://journals.cambridge.org. For further information on other Press titles access http://www.cambridge.org/.

This issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests.

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of $16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2015 $16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISSN Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

PARASITOLOGY

CONTENTS

PREFACE
The evolution of parasite genomes and the origins of parasitism
Andrew P. Jackson  S1
Evolution of parasitism along convergent lines: from ecology to genomics
Robert Poulin and Haseeb S. Randhawa  S6
The origins of malaria: there are more things in heaven and earth...
P. J. Keeling and J. C. Rayner  S16
The evolution of parasitism in Nematoda
Mark Baxter and Georgios Koutsovoulos  S26
Genome evolution in trypanosomatid parasites
Andrew P. Jackson  S40
Large, rapidly evolving gene families are at the forefront of host-parasite interactions in Apicomplexa
Adam J Reid  S57

Signatures of adaptation to plant parasitism in nematode genomes
David McK. Bird, John T. Jones, Charles H. Opperman, Taiaki Kikuchi and Etienne G.J.Danchin  S71
What helminth genomes have taught us about parasite evolution
Magdalena Zarewicz and Matt Barrett  S95
Recurrent bottlenecks in the malaria life cycle obscure signals of positive selection
Hsiao-Han Chang and Daniel L. Hartl  S98
A co-evolutionary arms race: trypanosomes shaping the human genome, humans shaping the trypanosome genome
Paul Capewell, Annell Cooper, Caroline Lucas, William Weir and Annette Macklin  S109
Sexual reproduction and genetic exchange in parasitic protozoa
Gareth D. Widdall and Nail Hall  S120
