Working the Rough Stone

Freemasonry and Society
in Eighteenth-Century Russia
Douglas Smith

"The best work on Russian Freemasonry. . . Interesting and convincing."
—Gary Marker, SUNY Stony Brook

The first scholarly history of Russian Freemasonry to appear in English, *Working the Rough Stone* explains how the Masonic lodges helped to prepare the way for the birth of civil society in Russia. Home to the country's educated classes, the lodges offered a social alternative to the world of the tsarist court and the opportunity for intellectual and moral enlightenment.

Based on extensive archival research, *Working the Rough Stone* compels us to rethink long-held assumptions about Russian society and expands our understanding of the complex processes of Westernization and identity formation.

Autocracy under Siege

Security Police and Opposition
in Russia, 1866–1905

Jonathan W. Daly

"A clear and readily comprehensible guide to the complex and changing institutions of the tsarist security police."
—Dominic Lieven, LSE

Examining the role of the security police in the struggle between the Imperial regime and those dedicated to its destruction, *Autocracy under Siege* shows how the steady growth of antigovernmental activity compelled Russia's leaders to expand, to improve, and to refine their antirevolutionary institutions and weapons.

Drawing upon a wealth of sources, including many recently declassified archival documents, this probing analysis of the interplay between regime and opposition illuminates larger issues concerning the Imperial regime and its efforts to modernize during the years before the Revolution of 1905.

The Industrialisation of Soviet Russia (6 volumes)

R.W. Davies

"Davies is the foremost economic historian of Stalin's Soviet Union"

- Ronald Suny, *Business History Review*

"a genuine chronicle of the industrialization of Soviet Russia"

- A. Solokov and L.Vonyushkina, *Obshchestvennaya mysl' za rubezhom, Moscow*

Planned as a number of independent volumes, this major work will cover the years 1929-1937, the crucial period of the first two five-year plans. In these years the Soviet Union became a great industrial power, and the economic system took the form which, in its main features, it retained until the collapse of the Soviet Union in 1991.

R.W. Davies is Emeritus Professor in the Centre for Russian and East European Studies at the University of Birmingham, UK. He is an historian and specialist on the former Soviet Union, who has published many books and articles on Soviet history between the wars, and on contemporary current affairs.

Nation-building in the Post-Soviet Borderlands

The Politics of National Identities
*Graham Smith, Vivien Law,
Andrew Wilson, Annette Bohr
and Edward Allworth*

The emergence in 1991 of the fourteen borderland post-Soviet states has been accompanied by the re-forming of their national identities. This book analyzes these national identities and explores their consequences for the borderland states, with substantive studies drawn from the Baltic states, Ukraine and Belarus, Transcaucasia and Central Asia.

Freedom and Terror in the Donbas

A Ukrainian-Russian Borderland, 1870s-1990s
Hiroaki Kuromiya

A little-known former Cossack land, the Donbas remained a haven for fugitives, providing freedom to whoever needed it. As a result, Stalin's Terror was extraordinarily harsh in the Donbas. This book paints a detailed yet panoramic picture of the tumultuous history of the Donbas and analyzes critical events in modern Ukrainian and Russian history from a regional perspective.

A History of the Soviet Union from the Beginning to the End

Peter Kenez

Peter Kenez traces the development of the Soviet Union from the Revolution, through the 1920s, the years of the New Economic Policies and into the Stalinist order. He shows how post-Stalin Soviet leaders struggled to find ways to rule the country without using Stalin's methods but also without openly repudiating the past, and to negotiate a peaceful but antipathetic coexistence with the capitalist West.

TOLSTOY ON THE COUCH

Misogyny, Masochism and the Absent Mother

DANIEL RANCOUR-LAFERRIERE

In 1888, Leo Tolstoy mysteriously declared that sexual intercourse should no longer exist. Years later he would admit to being "horrified" by this pronouncement, but still remained an ardent believer in sexual abstinence. Frequenter of brothels in his youth, father of thirteen children by his wife and at least two children by peasant women before he was married, Tolstoy now had the audacity to suggest that people should stop having sex. How can such a repudiation be explained?

Beginning with Tolstoy's *Kreutzer Sonata*—his first written "declaration of war on human sexuality"—*Tolstoy on the Couch* takes us on a sweeping psychoanalytic tour of Tolstoy's diaries and other private materials, revealing behind his campaign for celibacy a painful and complicated drama of early childhood. Rooting Tolstoy's polarized feelings about women and sexuality in his uncontrollable rage toward the mother who died when he was an infant, Rancour-Laferriere offers profound psychobiographic insights into Tolstoy's lifelong animosity toward women—and into the women he loved to hate.

The World of Nabokov's Stories

Maxim D. Shraye

The World of Nabokov's Stories By Maxim D. Shraye

A century after his birth, Vladimir Nabokov remains controversial, provocative, and "cool." Yet while he receives acclaim as a major American writer, few of his admirers in the West know the unique place he occupies in his native Russian tradition. In this comprehensive study of Nabokov's short fiction, Shraye explores how Nabokov eclipsed the achievements of the great Russian masters of the short story, Anton Chekhov and Ivan Bunin, with whom he maintained a dialogic relationship even as he became—in exile from Russia and his native tradition—an American writer.
