

Climate Change 2001

The Intergovernmental Panel on Climate Change (IPCC) provides periodic assessments of the causes, impacts and possible response strategies to climate change. Through three working groups, several hundred international experts assess climate change in this Third Assessment Report.

These latest assessments of the IPCC will again form the standard scientific reference for all those concerned with climate change and its consequences.

Climate Change 2001: The Scientific Basis

Contribution of Working Group I to the Third Assessment Report of the IPCC

Edited by J. T. Houghton, Y. Ding, D. J. Griggs, M. Noguer, P. J. van der Linden and D. Xiaosu

This IPCC Working Group I report brings us completely up-to-date on the full range of scientific aspects of climate change.
