Contents continued from the outside back cover:

Authors’ response

938 Rachel I. Mayberry and Robert Klunder. Rethinking the critical period for language: New insights into an old question from American Sign Language

Research notes

945 Yael Farhy, João Veríssimo and Harald Clahsen. Do late bilinguals access pure morphometry during word recognition? A masked-priming study on Hebrew as a second language

952 Marc Liis Vives, Lydia Repke and Albert Costa. Does bilingualism really affect social flexibility?

Research articles

957 Elf G. Ilker and Nairá Ramirez-Esparza. Bilinguals’ social flexibility

970 Sarah Grey, Cristina Sanz, Kara Morgan-Short and Michael T. Ullman. Bilingual and monolingual adults learning an additional language: ERPs reveal differences in syntactic processing

995 Nandini C. Singh, Archith Rajan, Archana Malagi, Keerthi Ramanujan, Matteo Canini, Yael Farhy, João Veríssimo and Harald Clahsen. Does bilingualism really affect social flexibility?

1009 Eli Peristeri, Ianti Maria Tsipili, Antonella Sorace and Kyraña Taipkin. Microstructural anatomical differences between bilinguals and monolinguals

1035 David Peeters and Ton Dijkstra. Sustained inhibition of the native language in bilingual language production: A virtual reality approach

1062 Helen Vander Beken and Marc Brysbaert. Studying texts in a second language: The importance of test type

1075 W. Qin Yow, Jessica S. H. Tan and Suzanne Flynn. Code-switching as a marker of linguistic competence in bilingual children

1091 Hwajin Yang, Andree Hartanto and Sujin Yang. Bilingualism confers advantages in task switching: Evidence from the dimensional change card sort task

SUBSCRIPTIONS

Bilingualism: Language and Cognition (ISSN 1366-7289) is published five times a year in January, March, May, August and November. First part forms a volume. The 2019 subscription price (excluding VAT) of a volume, which includes print and electronic access, is £147 (£165 US $246 in USA, Canada and Mexico). £46 (£55 US $70) for individuals, which includes print only, ordering direct from the publisher and certifying that the journal is for their personal use. The electronic-only price available to institutional subscribers is £47 (£55 US $70) for the USA, Canada and Mexico. Single parts are £28 (US $42) per part and postage. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions (including JSPS delivery) are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Orders, which may be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher. Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK; or in the USA, Canada and Mexico: Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Copies of the journal for subscribers in the USA are sent by air to New York to arrive with minimum delay.

COPYING

The journal is registered with the Copyright Clearance Centre, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA who are also registered with C.C.C. may therefore copy material beyond the limits permitted by sections 107 and 108 of U.S. copyright law subject to payment to C.C.C. of the per-copy fee of $12.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 1366-7289/2018/52-02.00 ISSN Print: 358-1234. Single parts are £28 (US $42) plus postage. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. CONTENTS

Editorial
883  Jubin Abutalebi and Harald Clahsen. Critical periods for language acquisition: New insights with particular reference to bilingualism research

Keynote article
886  Rachel L. Mayberry and Robert Kluender. Rethinking the critical period for language: New insights into an old question from American Sign Language

Commentaries
906  Nicas Abrahamsson. But first, let’s think again!
908  Ellen Bialystok and Judith F. Kroll. Can the critical period be saved? A bilingual perspective
911  David Birdsong and David Quinto-Pozos. Signers and speakers, age and attainment
913  Robert Bley-Vroman. Language as “something strange”
915  Robert DeKeyser. The critical period hypothesis: A diamond in the rough
917  Karen Emmorey. Variation in late L1 acquisition?
919  James Emil Flege. It’s input that matters most, not age
921  Kenneth Hyltenstam. Second language ultimate attainment: Effects of maturation, exercise, and social/psychological factors
924  Diane Lillo-Martin. Differences and similarities between late first-language and second-language learning
926  Michael K. Long and Gisela Granena. Sensitive periods and language aptitude in second language acquisition
928  Elissa L. Newport. Is there a critical period for L1 but not L2?
930  Rebecca Reh, Maria Arredondo and Janet F. Werker. Understanding individual variation in levels of second language attainment through the lens of critical period mechanisms
932  João Veríssimo. Sensitive periods in both L1 and L2: Some conceptual and methodological suggestions
934  Lydia White. Nonconvergence on the native speaker grammar: Defining L2 success
936  Benjie Woll. The consequences of very late exposure to BSL as an L1
