Psychological Medicine is a journal primarily for the publication of original research in clinical psychiatry and the basic sciences related to it. These include relevant fields of biological enquiry traditionally associated with medicine but also the various psychological and social sciences. Review articles, editors and letters to the Editor published discussing papers are also published. Must be in English.

Books for review should be sent to one of the two Editors, depending on country of publication (see instructions for contributors).

Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) and Mexico to Journals Fulfi llment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Japanese prices for institutions are available Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK, or in the USA, Canada and Mexico, to Cambridge University Press, and VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied for all authors, any financial involvement (including employment, fees, share ownership) or affi liation with any organization whose financial financial interests may be affected by the material in the manuscript, or which might potentially bias it. This applies to all papers including editorials and letters to the editor.

Contributors should also note the following:

1. I.S. units should be used throughout in text, fi gures and tables.

2. Authors should spell out full in all abbreviations used in their manuscripts.

3. Foreign quotations and phrases should be followed by a translation.

REFERENCES (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a text citation of a work by more than two authors cite the fi rst author’s name followed by et al. (but the names of all of the authors should be given in the References section). Where several references are cited together they should be listed in rising date order.

(2) The References section should be supplied in alphabetical order (authors’ names in bold, journal titles in full), following the text. Some examples:

(3) Online citations
doi: when published online prior to printed issue

[Authors are requested to print-out and keep a copy of any online-only material, in case the URL changes or is no longer maintained.]

FIGURES AND TABLES Only essential fi gures and tables should be included. Further fi gures, photographs and appendices, may be included with the online version on the journal website. To ensure that your fi gures are reproduced to the highest possible standards, Cambridge Journals recommends the following formats and resolutions for supplying electronic fi gures. Please ensure that your fi gures are saved at fi nal publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. Line artwork: Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Combination artwork (line/tonal): Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Black and white halftone artwork: Format: tif; Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Colour halftone artwork: Format: tif; Colour mode: CMYK. For all photographs, graphics, and diagrams should be referred as fi gures in the References section. Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titis should be kept to a minimum.

PROOFS AND OFFPRINTS Page proofs will be sent to the author prior to publication. Corrections other than to printer’s errors may be made on the copy received. The corresponding author of each paper will receive a PDF file of their article and hard copy offprints may be purchased if ordered on the form supplied when the proof is returned.
