Treatment with synthetic liphophilic tyrosine ester controls Leishmania major infection by reducing parasite load in BALB/c mice

Molecular prevalence and genetic characterization of pinworms in dogs from Tanzania
Mohamed R. Rajab, Salma Amal, Mariam Ranaoui, Fatma Ben Salem, Mozi Mabrouk and Mohamed Ghanbar 1622

Confling: anisakid echinostomatiasis hepatic fibrosis through regulating IL-13 associated signal pathway in vitro and in vivo
Hua Rong Li, Gang Li, Min Li, Shou-Ling Zhang, Heng Wang, Yue Lu, Fei Wu, Jia-Hua Dong, Yuan-Jin Guo and Lai Zhao 1629

Molecular and morphological variation of Paragonimus westermani in Vietnam with records of new second intermediate crab hosts and a new locality in a northern province
N. Pham Doanh, A. Luu Tu, T. Dung Bai, T. Ho Loan, Nankai Nanuma, Yosho Hoti, Dinh Bai and Yurumii Naota 1639

Potential cerebral malaria therapy: intramuscular arteether for cerebral malaria treatment in BALB/c mice

Evaluation of the immunodiagnostic potential of a recombinant surface protein domain from Ascithamorpha castellanii
Aleman G. Garaynekve Sanchez, Veracida Garcia Vigumed, Viloria Jose Meche, Henrik Bumsamymer Feina and Marinka Tlstys Fott 1656

Lancifical activity of Bacillus thuringienis var. israelensis Cry11Aa toxin against Haemonchus contortus
Ana Paula de Souza Branco Lamas, Lucas Blowley Lanzaroto, Ana Mauro Valasie, Francisco Daniel Siqueira Santos, Luciana Silva Pinto, Maria Elizabe Arau Barre and Fabio Pereira Lavas Lafft 1665

Establishment of a murine model of cerebral malaria in Kunming mice infected with Plasmodium berghei ANKA
Yao Ding, Wenyue Xu, Taoli Zhou, Taiping Liu, Hong Zheng and Yong Fu 1672

CORRIGENDUM
Triggering and modulation of the host-parasite interplay by Echinococcus multilocularis: a review - CORRIGENDUM
Nouar Mejri, Andrew Hemphill and Bruno Gottstein 1681
Parasitology publishes definitive papers on all aspects of pure and applied parasitology including biochemistry, molecular biology, immunology, genetics, ecology and physiology and also the application of new techniques, long-term epidemiology studies, advances in the understanding of life-cycles, chemotherapy and major systematic revisions. Papers should normally be full length with an explanatory introduction and detailed discussion of the findings reported. Shorter reports of particularly important findings will also be considered.

To submit papers online, go to http://mc.manuscriptcentral.com/par/
