

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

30th ANNIVERSARY YEAR

VOLUME 31, NUMBER 5

MAY 2010

SHEA-IDSa GUIDELINE

- 431 **Clinical Practice Guidelines for *Clostridium difficile* Infection in Adults: 2010 Update by the Society for Healthcare Epidemiology of America (SHEA) and the Infectious Diseases Society of America (IDSA)** • Stuart H. Cohen, MD; Dale N. Gerding, MD; Stuart Johnson, MD; Ciaran P. Kelly, MD; Vivian G. Loo, MD; L. Clifford McDonald, MD; Jacques Pepin, MD; Mark H. Wilcox, MD

ORIGINAL ARTICLES

- 456 **Factors Associated with Increased Healthcare Worker Influenza Vaccination Rates: Results from a National Survey of University Hospitals and Medical Centers** • Thomas R. Talbot, MD, MPH; Timothy H. Dellit, MD; Joan Hebdon, RN, MS, CIC; Danny Sama, MBA; Joanne Cuny, RN, MBA
- 463 **Evaluation of International Classification of Diseases, Ninth Revision, Clinical Modification Codes for Reporting Methicillin-Resistant *Staphylococcus aureus* Infections at a Hospital in Illinois** • Melissa K. Schaefer, MD; Katherine Ellingson, PhD; Craig Conover, MD; Alicia E. Genisca, BA; Donna Currie, MSN, RN; Tina Esposito, MBA, RHIA; Laura Panttila, RHIA; Peter Ruestow, MPH; Karen Martin, RN, MPH; Diane Cronin, RHIT; Michael Costello, PhD; Stephen Sokalski, DO; Scott Fridkin, MD; Arjun Srinivasan, MD
- 469 **Prevalence of USA300 Strain Type of Methicillin-Resistant *Staphylococcus aureus* among Patients with Nasal Colonization Identified with Active Surveillance** • Eduardo A. F. Freitas, MD; Rebecca M. Harris, BS; Ruth K. Blake, MT; Cassandra D. Salgado, MD, MS
- 476 **Outbreak of Carbapenem-Resistant *Klebsiella pneumoniae* in Puerto Rico Associated with a Novel Carbapenemase Variant** • Christopher J. Gregory, MD, MPH; Eloisa Llata, MD; Nicholas Stine, MD; Carolyn Gould, MD; Luis Manuel Santiago, MS; Guillermo J. Vazquez, MD; Iraida E. Robledo, PhD; Arjun Srinivasan, MD; Richard V. Goering, PhD; Kay M. Tomashek, MD, MPH
- 485 **Absence of Association between Use of Ertapenem and Change in Antipseudomonal Carbapenem Susceptibility Rates in 25 Hospitals** • Kathryn J. Eagye, MPH; David P. Nicolau, PharmD, FCCP, FIDSA
- 491 **Trial of Universal Gloving with Emollient-Impregnated Gloves to Promote Skin Health and Prevent the Transmission of Multidrug-Resistant Organisms in a Surgical Intensive Care Unit** • Gonzalo Bearman, MD, MPH; Adriana E. Rosato, PhD; Therese M. Duane, MD; Kara Elam, MPH; Kakotan Sanogo, MS; Cheryl Haner, RN, BSN; Valentina Kazlova, MSc; Michael B. Edmond, MD, MPH, MPA
- 498 **Comparison of 4 Different Types of Surgical Gloves Used for Preventing Blood Contact** • Andreas Wittmann, PhD; Nenad Kralj, MD, MScD; Jan Köver, BA; Klaus Gasthaus, MSc; Hartmut Lerch, MD, MScD; Friedrich Hofmann, PhD, MD, MScD
- 503 **Should National Standards for Reporting Surgical Site Infections Distinguish between Primary and Revision Orthopedic Surgeries?** • Surbhi Leekha, MBBS, MPH; Priya Sampathkumar, MD; Daniel J. Berry, MD; Rodney L. Thompson, MD

The power to reduce
microorganisms by 59%¹
is at your fingertips.

Chloraprep® was **proven** more effective for peripheral IVs.¹

A recent study compared the Chloraprep® Sepp® (2% chlorhexidine gluconate/70% isopropyl alcohol) to 70% isopropyl alcohol (IPA) wipes prior to peripheral venous cannulation (PVC):

- The study shows that using Chloraprep prior to peripheral IV insertion may help reduce the risk of subsequent PVC contamination or colonization, compared with using 70% IPA alone.
- Microorganisms were present on 49.4% of PVC tips in the 70% IPA group compared with only 19.8% in the 2% CHG in IPA (Chloraprep) group.
- 2% CHG has been proven in more than 35 outcome studies and 11 evidence-based guidelines.

Chloraprep®. The proven way to prep.™

Infection Control and Hospital Epidemiology (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

Editorial Office

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954; (e-mail: iche@press.uchicago.edu; telephone: 773-773-2298, fax: 773-753-4247). Contributors should consult the Information for Authors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to Journals Advertising, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: cbarhany@press.uchicago.edu; telephone: 773-702-8187; fax: 773-702-0172). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution,

for advertising or promotional purposes, for creating new collective works, or for resale, please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: journalpermissions@press.uchicago.edu; fax: 773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

Subscriptions

Subscription rates for 2010 are \$180 for individuals and \$413 for institutions. Single-copy rates are \$18 for individuals and \$41 for institutions. Additional rates for non-US subscribers and reduced rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Individuals have the option to order directly from the University of Chicago Press. Subscription agent for Japan: Kinokuniya Company, Ltd.

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: subscriptions@press.uchicago.edu; telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

Postmaster: Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

Find the latest in infection control research and practice information in **AJIC**

American Journal of Infection Control

EDITOR: Elaine L. Larson, RN, PhD, FAAN, CIC

AJIC covers key topics and issues in infection control and epidemiology. Infection control professionals, including physicians, nurses, and epidemiologists, rely on **AJIC** for peer-reviewed articles covering clinical topics as well as original research. As the official publication of the Association for Professionals in Infection Control and Epidemiology, Inc. (APIC), **AJIC** is the foremost resource on infection control, epidemiology, infectious diseases, quality management, occupational health, and disease prevention. **AJIC** also publishes relevant infection control guidelines. **AJIC** is included in Index Medicus and CINAHL.

Organization

SAVE LIVES:
Clean **Your** Hands

WHO **SAVE LIVES:** Clean **Your** Hands 5 May 2010

A call to action for all health-care professionals

Are you a health-care professional concerned about infection prevention and control? Do you want to save lives?

As part of the **Clean Care is Safer Care** programme, WHO is again promoting its global annual hand hygiene initiative on 5 May 2010, building on the success of May 2009 when 5 000 health-care facilities registered their support. This year we are aiming for 10 000 by May 2010.

How can you help?

- ✦ Register for **SAVE LIVES: Clean Your Hands** if you haven't already and ask 5 others that you know to register as well. The process is simple, go to:
<http://www.who.int/gpsc/5may/register/en/index.html>
- ✦ Develop your own hand hygiene activities linked to this year's WHO global annual initiative, and include the promotion of WHO 'My 5 moments for hand hygiene' and alcohol-based handrub. WHO fliers can be provided for events
- ✦ Share your activities with WHO (email savelives@who.int) and WHO will share these, to encourage others, on a dedicated website
- ✦ Publicize your activities locally, for example in newsletters, etc
- ✦ Participate in the WHO 2010 free webinars on infection control, including a special week from 3-5 May focusing exclusively on hand hygiene and featuring a key lecture by Professor Didier Pittet on 5 May
- ✦ Find out if there is a national hand hygiene campaign in your area and link to this
- ✦ Encourage others to take action - help spread the hand hygiene message - consider adding a **SAVE LIVES: Clean Your Hands** sign off signature to your email

Find out all about the support available from WHO at <http://www.who.int/gpsc/5may>

Taking action now will ensure that you are part of a growing global movement and will help to address health care-associated infections.

Thank you for your support

Professor Didier Pittet, Dr Benedetta Allegranzi, Claire Kilpatrick
and all at WHO First Global Patient Safety Challenge

*"On 5 May 2010, the World Health Organization (WHO) in their **SAVE LIVES: Clean Your Hands** annual initiative activities, will again issue a global call to action inviting health-care workers, facilities and organisations throughout the world to actively campaign for improved hand hygiene at the point of care to reduce health care-associated infections and to demonstrate their commitment to this priority global movement."*

BD Protect™

the **best offense**
is a **good defense**

Helping all people
live healthy lives

In the fight against Healthcare-Associated Infections,

a good defense means having the right information to make the right decisions at the right time. **BD Protect™ is the first infection surveillance and data management system** to help fight infections on all fronts:

Infection Prevention

Preventing the spread of healthcare associated infections starts with actionable information. With BD Protect, you receive real-time alerts from your hospital systems and analyze ongoing processes and outcomes for evidence-based decisions.

Healthcare Worker Safety

Your people are your first line of defense. To enhance the safety of your healthcare workers, BD Protect helps you schedule and track employee vaccines, fit tests, exams, in-service education, absences, injuries and illnesses.

Syndromic Surveillance

You might never see them coming. But BD Protect will. By analyzing aggregate symptom data from patients presenting to the emergency room, BD Protect flags potential outbreaks faster than lab results.
