STATEMENT OF AIMS

Institutions are the stuff of social and economic life. The organizations, including the World Bank, have recognized the importance of institutions for economic development. The Nobel Prize has been awarded to Ronald Coase, Douglass North, Garret Hardin and Simon Kuznets for their pioneering work in institutional economics. The Journal of Institutional Economics aims to develop in the study of the nature, role and evolution of institutions in firms, states, markets, money, households and all other vital institutions and organizations. It welcomes contributions by all schools of thought that can contribute to our understanding of the features, development and functions of real world economic institutions.

The reference number of the manuscript must accompany it within the article itself, or in the 'Authors' section of the electronic file. Normally, footnotes should be kept to a minimum and the Harvard referencing system should be used. Submission of a paper will be held to imply that it contains original unpublished work and is not being submitted for publication elsewhere.

The Editors will acknowledge receipt of the manuscript, provide it with a manuscript reference number and assign it to reviewers. The reference number of the manuscript should be quoted in all correspondence with JOIE Office and Publishers.

The Journal of Institutional Economics is devoted to the publication of the highest quality research in the field of institutional economics. It encompasses research in both formal and econometric technique for their own sake. The aim of the journal is to publish innovative and interdisciplinary work that is of interest to all academic working in the social sciences, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert version on their articles within 90 days of submission.

All manuscripts must be submitted online via the journal's website. The Journal of Institutional Economics is an interdisciplinary journal that will be of interest to all academic working in the social sciences, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert version on their articles within 90 days of submission.
