

Parasitology

From 2022, the production of Parasitology will transition to online production only but will continue to adhere to monthly production of issues to maintain its delivery of high standard publications.

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2021 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for Parasitology. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: Colored images of parasites. Upper left: *Trypanosoma brucei brucei* bloodstream form and an erythrocyte; upper right: *Trichinella spiralis* 1st stage larvae; lower left: *Otodectes cynotis*; lower right: *Giardia lamblia* trophozoites adhering to mouse intestine. Images are provided by the Institute of Parasitology, University of Bern.

PARASITOLOGY

CONTENTS

REVIEW ARTICLES

The global status and genetic characterization of hydatidosis in camels (*Camelus dromedarius*): a systematic literature review with meta-analysis based on published papers

Davood Anvari, Nima Pourmalek, Saeed Rezaei, Amir Fotovati, Seyed Abdollah Hosseini, Ahmad Daryani, Adel Spotin, Shahabeddin Sarvi, Mona Hosseini, Mohammad Reza Narouei, Mohammad Kalkali, Faezeh Pendar and Shirzad Gholami 259

Bidirectional interactions between host social behaviour and parasites arise through ecological and evolutionary processes

Dana M. Hawley, Amanda K. Gibson, Andrea K. Townsend, Meggan E. Craft and Jessica F. Stephenson 274

RESEARCH ARTICLES

Comparison among FLOTAC, Kato-Katz and formalin ether concentration techniques for diagnosis of intestinal parasitic infections in school children in an Egyptian rural setting

Amal Farahat Allam, Hoda Fahmy Farag, Wael Lotfy, Hayam Hussien Fawzy, Heba Elhadad and Amel Youssef Shehab 289

***Triatoma infestans* susceptibility to different *Trypanosoma cruzi* strains: parasite development and early escape from anterior midgut**

Larissa F. Paranaiba, Rodrigo P. Soares and Alessandra A. Guarneri 295

The efficacy of recombinant protein Ibk39 for the diagnosis of leishmaniasis in dogs

Joyce Carvalho Pereira, Pedro Dos Santos Sousa, Ligia Moraes Barizon De Souza, Aline Kuhn Sbruzzi Pasquali, Michelle Bates, Paul Bates and Vanete Thomaz Soccol 302

A new molecular nomenclature for *Taenia hydatigena*: mitochondrial DNA sequences reveal sufficient diversity suggesting the assignment of major haplotype divisions

John Asekhaen Ohiole, Hong-Bin Yan, Li Li, Wen-Hui Li, Yao-Dong Wu, Mughees Aizaz Alvi, Nian-Zhang Zhang, Bao-Quan Fu, Xue-Lin Wang and Wan-Zhong Jia 311

Disentangling the beta-diversity in anuran parasite communities

Elvira D'Bastiani and Karla M. Campião 327

A new ELISA and western blot technique based on recombinant TES antigen and/or larval antigen for the detection of toxocariasis in humans

Marie-Kristin Raulf, Daniela Jordan, Herbert Auer, Jens M. Warnecke, Bernd Leppenies and Christina Strube 333

***Eimeria bovis* infections induce G₁ cell cycle arrest and a senescence-like phenotype in endothelial host cells**

Zahady D. Velásquez, Sara López-Osorio, Daniel Waiger, Carolina Manosalva, Learta Pervizaj-Oruqaj, Susanne Herold, Carlos Hermosilla and Anja Taubert 341

Effects of parasites upon non-host predator avoidance behaviour in native and invasive gammarids

Sajad Farahani, Per J. Palsbøll, Ido Pen and Jan Komdeur 354

Effectiveness of doxycycline for the treatment of zoonotic cutaneous leishmaniasis *in vivo*

Iuliia K. Akulinina, Iza A. Berechikidze, Svetlana N. Larina, Tatyana V. Sakharova, Tatyana Yu. Degtyarevskaya and Marco Romanelli 361

Cercarial trematodes in freshwater snails from Bangkok, Thailand: prevalence, morphological and molecular studies and human parasite perspective

Pichit Wiroonpan, Thapana Chontanarith and Watchariya Purivirojkul 366
