P. Medrano-Martinez, R. Perela-Arribas
596 The Relation Between Personality, and Biomarkers in Sensitivity and Conversion to Alzheimer-Type Dementia
607 Attention/Working Memory, Learning and Memory in Adult Comorbidities: Normative Data, Effects of HIV Infection and Viral Genotype

BRIEF COMMUNICATION
624 Operationalizing Impaired Performance in Neuropsychological Assessment: A Comparison of the Use of Published Versus Sample-Based Normative Data for the Prediction of Dementia
B.L. Callahan for the Alzheimer's Disease Neuroimaging Initiative
The focus of articles may be primarily experimental, more applied or clinical. Contributions will broadly reflect the interest of all areas of neuropsychology, including but not limited to: development of cognitive processes, brain-behavior relationships, adult neuropsychology, child neuropsychology, developmental neuropsychology, disorders of speech and language, and the interfaces of neuropsychology with related areas such as behavioral neurology, neuropsychiatry, neuroanesthesia, and electrophysiology. Book Reviews will also be published.

Member Subscription: The Journal of the International Neuropsychological Society is an official publication of The International Neuropsychological Society. Members of the Society automatically receive the Journal of the International Neuropsychological Society as part of their annual membership dues.
