Engineering

Books and Journals from
Cambridge University Press

Cambridge publishes a range of high-quality books and journals on the theory and practice of engineering, in communications, information theory, signal processing, networks, RF and microwave, circuits and devices, materials science and polymer research, applied photonics, thermal-fluids, mechanics, aerospace, and chemical engineering.

THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 70, 2017, which includes print and electronic access, is £604 (USA, Canada and Mexico US \$1092) and includes delivery by air; single parts are available at £110 (USA, Canada and Mexico US \$197) plus postage. The electronic-only price available to institutional subscribers is £468 (USA, Canada and Mexico US \$854). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

THE JOURNAL OF NAVIGATION

VOLUME 70 NUMBER 2 MARCH 2017

CONTENTS

- Virtual Electronic Aids to Navigation for Remote and Ecologically Sensitive Regions** 225
R. Glenn Wright and Michael Baldauf
- Adaptive Two-stage Kalman Filter for SINS/Odometer Integrated Navigation Systems** 242
Hongsong Zhao, Lingjuan Miao and Haijun Shao
- Adaptive Two-stage Kalman Filter for SINS/Odometer Integrated Navigation Systems – ERRATUM** 262
Hongsong Zhao, Lingjuan Miao and Haijun Shao
- Wayfinding by Means of Maps in Real-world Settings: A Critical Review** 263
Trine Bjerva and Thorsteinn Sigurjónsson
- MSARI: A Database for Large Volume Storage and Utilisation of Maritime Data** 276
Anthony W. Isenor, Marie-Odette St-Hilaire, Sean Webb and Michel Mayrand
- Multiple Model Adaptive Rank Estimation for Integrated Navigation During Mars Entry** 291
Qiang Xiao, Huimin Fu, Zhihua Wang and Yongbo Zhang
- An Ordinal Model of Risk Based on Mariner's Judgement** 309
Adan Lopez-Santander and Jonathan Lawry
- A Model-aided Optical Flow/Inertial Sensor Fusion Method for a Quadrotor** 325
Pin Lyu, Jizhou Lai, Hugh H.T. Liu, Jianye Liu and Wenjing Chen
- An Online Smoothing Method Based on Reverse Navigation for ZUPT-Aided INSs** 342
Qingzhong Cai, Gongliu Yang, Ningfang Song, Jianye Pan and Yiliang Liu
- Multi-Feature Maximum Likelihood Association with Space-borne SAR, HFSWR and AIS** 359
Hui Zhang, Yongxin Liu, Yonggang Ji, Linglin Wang and Jie Zhang
- Maritime Route Delineation using AIS Data from the Atlantic Coast of the US** 379
Stephen A. Breithaupt, Andrea Copping, Jerry Tagestad and Jonathan Whiting
- Container Shipping Network Optimisation Based on Steering Vector Search Pattern** 395
Yong Zhou, Wenyuan Wang, Xiangqun Song and Yun Peng
- Comparison of Unscented and Extended Kalman Filters with Application in Vehicle Navigation** 411
Cheng Yang, Wenzhong Shi and Wu Chen
- Orthodromes and Loxodromes in Marine Navigation** 432
Andrzej S. Lenart
- The Running Fix on an Ellipsoid** 440
Robin G. Stuart
