#### RAPID COMMUNICATIONS

**A revised model for the crustal structure of the SW Grenville Province, Ontario, Canada**
Alan Dickin, Jacob Strong, Gabriel Arcuri, Annika Van Kessel & Lucia Krivankova-Smal 903–913
The Geological Magazine was originally established in 1864 and has been published continually ever since. It covers the whole field of earth sciences, has a worldwide readership and has a particular strength in providing a niche for interdisciplinary papers and papers that would be of interest to geologists from many different specialities. Papers of any length are considered, provided that the length is justifiable.

The Magazine publishes both original and review articles, rapid communications, discussions of papers which have already appeared, and book reviews and a list of new publications. There are no page charges for papers published in the Magazine.
