Optimal Dynamic Nonlinear Income Taxation under Loose Commitment
Jang-Ting Guo and Alan Krause 1403

NOTES
A Note on Uncertainty in Savings Decisions: Can a Naïve Strategy Be Optimal?
Fábio Augusto Reis Gomes 1428
MACROECONOMIC DYNAMICS

Contributions. Contributions are welcome from all countries. They should be written in English. Authors should ensure that all graphics files are labeled with the appropriate file name so that they can be sent to either of the journal's Special Issues Editors.

Aims and Scope/Editorial Policy. Macroeconomic Dynamics publishes papers of the highest theoretical, empirical or quantitative sophistication. Papers of high quality are welcomed from all areas of macroeconomics and from all parts of the world, as long as the research is founded in a rigorous scientific approach. Major advances in macroeconomics without immediate policy implications are also accepted, if they show potential for application in the future. Occasional book reviews, announcements, conference proceedings and interviews are also published. Special issues appear in the journal's Supplements Series, having its own Special Issues Editors. An electronic version of the journal will be published simultaneously with the paper version enabling immediate access to the hot current research in Macroeconomics. Home Page. The journal has a home page on the web which is a source of further information about the journal. The location of the home page is: http://econ.socrates.unc.edu/boom/MD.html Information about Macroeconomic Dynamics may also be viewed at www.journals.cambridge.org.

Submission. The submission procedure for this journal has been converted to electronic uploading of pdfs to the journal’s server. To submit, follow the instructions provided at http://servex.teranet.com/guides/submission.html. Questions about the submission procedure can be directed to Information System Manager, Stephen Spear, at x050@andrew.cmu.edu, or to the Editor, William A. Barnett, University of Michigan, 110 Willard Laboratory, Ann Arbor, MI 48109. Special Issues Submissions. The journal publishes special issues on topics of the Series. Proposals for special issues should be sent to either of the journal’s Special Issues Editors and should include a table of contents and one or more proposed guest editors. Originality and Copyright. Manuscripts are accepted on the understanding that the same work has not been and will not be published nor is presently submitted for publication elsewhere. While under editorial control, the responsibility for the accuracy of the information contained in the journal is solely that of the authors. The publisher reserves the right to make any corrections that they deem necessary in the interest of scientific accuracy. Sources of research material, the names of those persons assisted, the names of individuals responsible for the preparation of the manuscript, and the number of words in the manuscript should be given. The full text of the manuscript should begin on Page 1. Equations. All equations should be typed and the numbers for displayed equations should be placed in parentheses in the right margin. References to equations should simply use the form “(1)” or “(2)”. Superscripts and subscripts should be clearly above and below the line, respectively. Where more than one reference is cited within footnotes follow the form preferred for publication, complete source citations within footnotes should be placed in parenthesis in the text. End-of-proof signposts should appear as “(continued...). Source citations within footnotes follow the same style as citations within the main text. Endnotes. Endnotes are permitted and should be placed at the end of the paper. They should be numbered consecutively, the number of the endnote appearing in parentheses in the text. Endnotes should be double-spaced, typed to the left margin and numbered consecutively. Footnotes. Footnotes are permitted and should be placed at the bottom of the page. They should be numbered consecutively, the number of the footnote appearing in parentheses at the beginning of the footnote. Footnotes should be double-spaced, typed to the left margin and numbered consecutively. Alternatively throughout the text and typed together in the same line as the source citation.

References. References should be cited in the text by the author’s last name and the date of publication. Complete bibliographic information for each citation should be included in the list of references. References should be typed in alphabetical order in the style of the following example:

Tables and Figures. If possible, the publisher asks that you include all graphics (charts, diagrams or other art) at work at the end of the paper, indicating in the body of the paper where each graphic should appear. If possible, you should embed the graphics files in the word processor source file. If not, you should upload the individual graphics files separately after you upload the PDF and source files for your paper. The publisher reserves the right to change authors for excessive correction of faulty manuscripts. Pre-publication. The author should allow one month before publication of their article. Article in Press. Once a manuscript has been accepted for publication, it is considered a published manuscript. Articles will be made available on the journal’s home page as soon as possible, usually within a few weeks of acceptance. The published manuscript will be listed in PubMed/Medline. The electronic version of the journal will be published simultaneously with the paper version enabling immediate access to the hot current research in Macroeconomics.

EDITORIAL POLICY

*Macroeconomic Dynamics* publishes research of the highest theoretical, empirical or quantitative sophistication. Papers of high quality are welcomed from all areas of advanced macroeconomics and allied fields, so long as the research is founded in a rigorous scientific approach. Major advances in macroeconomics without immediate policy applications also are accepted, if they show potential for application in the future. Occasional book reviews, software reviews, announcements, conference proceedings and interviews are published.

An electronic version of the journal is published just prior to the paper version at journals.cambridge.org/mdy. Access to the full-text articles of the electronic version will be limited to institutional subscribers of the hard copy version of the journal, with access available to all online users at that institution’s registered domain. Tables of Contents, abstracts, searching and alerting services will remain free of charge. To view the full text of *Macroeconomic Dynamics*, you will need to use the Adobe Acrobat Reader software. If you do not have a copy already, you can get it free of charge. Just follow the link from our Cambridge Journals Online home page, download it, and install it as a plug-in helper application for your browser.
